Need to safely dispose of mercury?

Folsom's Household Hazardous Waste Program will accept mercury-containing items, such as compact fluorescent lights (CFLs) and silver mercury thermometers. Proper disposal of these items will help protect our waterways and the environment.

Many retailers will now accept used CFLs. Ask at your local home improvement center.

be mercury free *A Regional Partnership for Mercury Pollution Reduction*

Dispose of mercury-containing items and chemicals through Folsom's Household Hazardous Waste (HHW) Program.

Storing leftover pesticides?

Clean out leftover pesticides (such as those containing Chlorpyrifos, Diazinon, Lindane or Pyrethroids) or other chemicals by safely disposing of them through Folsom's Household Hazardous Waste program. Proper disposal of these chemicals will help protect our waterways and the environment.
