**IV. STRATEGIC PLAN DISCUSSION**

**Dennis Rogers:**

Mr. Rogers remarked upon the length of time taken by staff to bring the Strategic Plan before the Committee and stated that the Strategic Plan contained a considerable amount of fluff. He also informed the Committee that he felt this would be the time to start work on the East Bidwell Street corridor and he would like to know the external players within the project areas. He also suggested that staff should make an effort to implement preparations for the groups involved to get a consensus regarding their vision for their project areas. Regarding the Strategic Plan in general, Mr. Rogers felt that the most important steps would be to get rid of the fluff in the existing plan, while making the five

project areas the main focus of the plan and define programs for each of the five (5) project areas.

**Tom Parker:**

Mr. Parker agreed with Mr. Rogers on the amount of fluff included in the plan and felt that it was necessary to prioritize important projects and suggested that an action committee be formed in an effort to bring the Strategic Plan to realization.

**Marko Mlikotin:**

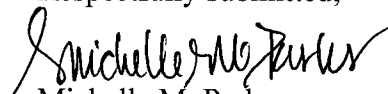

Mr. Mlikotin agreed with Mr. Rogers in regards to the amount of fluff in the plan and stated that he felt the budget should be addressed within the plan. He also felt that a discussion of the programs would be beneficial to all involved. Mr. Mlikotin requested that a map of all five subareas be brought back to the Committee for review and to focus on defining the subareas more clearly. In addition, he stated that the City needs to enforce codes and ordinances in regards to blight prior to purchasing any property.
