BACKGROUND

The Cultural Resource Inventory

On November 5, 1998, the Folsom City Council approved the 'Historic Preservation Master Plan.' This document established goals and objectives for historic preservation within the City of Folsom, identified a process for the listing of locally significant historic sites and structures, and authorized the Historic District Commission to determine the eligibility of sites nominated for listing.

The Klumpp Family

Jacob Klumpp purchased two lots and a residence along Figueroa Street in 1882 (Lots 11 and 12 of Block 34) and by 1890 Louis Klumpp had bought the two lots west of the property (Lots 9 and 10 of Block 34). The family originated in Germany but it is not known how Jacob and Louis were related. Jacob Klumpp later married Louisa Miller (raised at 607 Figueroa Street). In the 1900 Census, Louisa Miller Klumpp was listed as a pool mistress and in the 1910 Census, Louis Klumpp was listed as a saloon keeper.

NOMINATION

The Community Development Department has received a request for the listing of the historic residence at 610 Figueroa Street as a locally significant historical property. The submitted registration form was prepared by Tory Swim on behalf of the Heritage Preservation League of Folsom. Historic information regarding the property was obtained from local residents and historians, City and County records and the Folsom History Museum. The property has not previously been considered for historic listing.

Building History

The Sacramento County Assessors records from 1882 indicate that a residence had not yet been constructed at 610 Figueroa Street. However, by the time the 1899 Sanford Map was prepared, the property included an L-shaped residence with a porch along the front and rear facade. The shed roof addition along the east side of the building may have been constructed as a carport in 1948 and later enclosed as living space in 1965.

The Klumpp family sold the residential property in the early 1900s to Mary McFarland. In the 1950s, Mary's daughter Hazel occupied the residence. When the City of Folsom was incorporated in 1946, Hazel McFarland became the first City Clerk. The current property owner is Janet Marshall.

Current Building Description

The original residence at 610 Figueroa Street has a Folk Victorian design with a front gable, a moderately pitched roof, wood plank siding and double-hung windows. The main roof is lined with boxed eaves and a hipped roof covers the front porch. Decorative posts and railing frames the front porch and the main entrance to the home. The living space that was added along the east side of the residence is covered by a shed roof.

CRITERIA FOR LISTING AND RESOURCE INTEGRITY

The Historic Preservation Master Plan specifies the following review criteria regarding the listing of a site or structure in the City's Cultural Resources Inventory:

- Property is associated with events that have made a significant contribution to the broad patterns of our history.
- Property is associated with the lives of persons significant in our past.
- Property embodies distinctive characteristics of a type, period, region, construction method, or represents the work of a creative individual.
- Property has yielded, or is likely to yield, information important in Folsom's prehistory or history.

In order to qualify for the Cultural Resources Inventory, a property must meet one of the four listed criteria. As demonstrated by the information provided in the nomination package, the residential property at 610 Figueroa Street meets two of the criteria for listing, as established by the Historic Preservation Master Plan (associated the lives of people significant in our past and embodies distinctive characteristics of a type, period, region, construction method, or represents the work of a creative individual).

The Master Plan includes guidelines for the assessment of potential resources. The significance of a resource is established by answering the questions: why, where and when the property is important and the integrity of a resource can be determined by evaluating: location, design, setting, materials, workmanship, feeling and association. In order to qualify for the Cultural Resources Inventory, a resource must have at least two types of integrity. The nominated residential property incorporates all the aspects of integrity that are identified in the Historic Preservation Master Plan.

STAFF COMMENTS

The County of Sacramento assessor's records indicate that when Jacob Klumpp purchased two lots along Figueroa Street in 1882 (Lots 11 and 12 of Block 34), a residential structure already existed at 612 Figueroa Street. When a residence was constructed at 610 Figueroa Street (between 1882 and 1899), it was designed as the mirror image of the adjacent residence.

The mature trees, shrubs and flowers around the residence at 610 Figueroa Street contribute to the overall impression of the historic property. Characteristic of the area, a palm tree grows in the front yard of the property.

ENVIRONMENTAL REVIEW

The project is exempt from the provisions of the California Environmental Quality Act pursuant to California Code of Regulation Title 14, Section 15061 (Review of Exemption), as it can be said with certainty that the project will not have a significant effect on the environment.
