

# Fact Sheet #1

## Folsom Corporation Yard Landfill Clean Closure

A portion of the City of Folsom Corporation Yard property, located at 1300 Leidesdorff Street, was once an active landfill. The landfill was historically used by the City to dispose of construction and demolition debris, yard waste, and street litter. A landfill cap was installed in 1996 and routine, post-closure maintenance and monitoring of the cap has been conducted for over a decade. The City of Folsom is planning to “clean close” the inactive landfill in 2008.

**What is Clean Closure?** Clean Closure is a process where the waste in an inactive landfill is removed resulting in a clean property. This activity is conducted under the supervision of regulatory agencies with jurisdiction over Clean Closure. The agencies review and approve the work plan before any work begins. When this work is complete, the appearance of this portion of the Corporation Yard will be much as it is now – an open field covered with grasses.

**What are the environmental aspects of the project?** As required by the California Environment Quality Act (CEQA), an Initial Study of various environmental aspects of the clean closure project has been completed. The Initial Study will be available for public and regulatory agency review beginning January 7, 2008. Copies of the Initial Study will be available at the Folsom Public Library for review and an electronic version will be available online at the City's web site <http://cleanclosure.folsom.ca.us>.

**How do I stay informed about project activities?** The City of Folsom strives to maintain frequent and open communication with community members. We want you to understand what is being done and give you the opportunity to provide input. Information will be provided through fact sheets, neighborhood meetings, and the City's web site.

For general information on this project or to be added to the mailing list, please contact Jennifer Tencati, CirclePoint | MMC Communications, at (916) 658-0180 x131 or [j.tencati@circlepoint.com](mailto:j.tencati@circlepoint.com).
