

CITY OF
FOLSOM
DISTINCTIVE BY NATURE

December 17, 2009

Honorable Mayor, Members of the City Council, and Citizens of the City of Folsom, California:

The Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2009 is submitted for Council review in accordance with Section 3.02.160 of the Folsom Municipal Code and published as a matter of public record for interested citizens. This transmittal letter provides information regarding the economy and the governing structure in Folsom. An overview of the City's financial activities for the fiscal year is discussed in detail in the Management's Discussion and Analysis section of the CAFR. While the independent auditor has expressed an opinion on the financial statements contained in this report, management takes sole responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal controls that it has established for this purpose. The objective of internal controls is to provide reasonable, rather than absolute, assurance that the CAFR information is accurate in all material respects.

THE FOLSOM GOVERNMENT – The City of Folsom was founded in 1856, incorporated in 1946, and chartered in 1990. Folsom is a “full service” charter City, serving a population of over 71,018. The City is approximately 110 miles northeast of San Francisco and 20 miles east of Sacramento. The City is located along the eastern end of the Highway 50 corridor in an area of the Sacramento Valley that has experienced considerable growth over the past 10 years.

The City's primary governing body is the City Council, composed of five members who are elected at large and serve four-year terms. The City operates under a Council-Manager form of government, and council members annually choose a mayor and vice mayor from among their members. The City Manager is appointed by the City Council and administers the daily affairs of the City and carries out City Council policies.

The City provides a full range of services including police, fire, emergency medical response, public works, transit, community development planning, and redevelopment and building inspections. In addition, the City operates a library, parks and recreation facilities, including a zoo sanctuary and aquatic center, and provides water, wastewater, and solid waste utility services.

The CAFR presents the financial status of the City and its component units, which are separable legal entities that are included in this report because of the significance of their operational or financial relationships with the City. The following component units are reported on a blended basis as part of the primary government because their boards are composed of City Council members or they are, in substance, part of the City's operations:

Folsom Redevelopment Agency (FRDA)
Folsom Public Financing Authority (FPFA)

The services provided by FRDA include low income and elderly housing and assistance, social services and redevelopment projects within the City. The FPFA is an entity created to issue bonds to finance City and FRDA projects.

The Folsom Municipal Code requires that the council adopt an annual budget by resolution by fund and program by affirmative vote of at least three members, on or before the last working day of the last month of the current fiscal year. Once approved by City Council, this annual budget serves as the foundation for the City's financial planning and control. Budgets are adopted on a basis consistent with GAAP. The City maintains budgetary controls to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the City Council. Activities of all funds are included in the annual appropriated budget. The level of budgetary control at which expenditures cannot legally exceed the appropriated amount is at the fund and department level. This means that expenditures cannot legally exceed the amount appropriated by the City Council. Additional budgetary information can be found in Note 1 to the financial statements or at the City of Folsom's website, http://www.folsom.ca.us/depts/finance/city_budget/default.asp.

THE LOCAL ECONOMY - The City of Folsom is a largely "built-out" community in respect to residential construction. This combined with the national economic slowdown, including declining sales tax revenues, a sluggish economy and increased employee costs poses a number of potential expense and revenue challenges in the future.

The Sacramento region's rate of job loss continued its decline in FY 2009, resulting in an unemployment rate of over 11% at the end of the fiscal year. The current weak performance is being driven by (1) weak consumer spending, (2) limited access to credit and (3) reduced government spending with potential for additional layoffs. However, due to the diversity of the local economy in Folsom and the stability of the largest employers, Folsom has maintained an unemployment rate that is less than half that of Sacramento County (5.4% to 11.9% in June, 2009) and lower than any comparable municipality in the region.

With respect to the local housing market, the Sacramento region experienced a continued drop in prices, bringing the median home sale price to just over \$200,000. Folsom, however, maintained a fairly stable housing market with the median home sale price at \$355,000 which, while representing a decline, was much less of a drop than experienced in the surrounding region. Furthermore, the foreclosure rate for 2009, adjusted to an annual basis, is about 1%, well below the rate for the region. On a positive note, the region's housing affordability rating is at 75%, meaning 75% of the region's homes are within the budget of a family earning the region's median income.

Unlike other areas, Folsom continues to move forward on a number of developments within the city. The Palladio Mall is moving forward and the 16-screen theater should open in December, 2009, the Folsom Lake College Performing Arts Center is under construction, CAL-ISO is moving ahead with the construction of their new headquarters, Numonyx is continuing to build their new company headquarters, a new motel is almost complete and is looking to open around the first of the year (2010), and, of course, the city is moving ahead with its \$20 million historic district revitalization and the development of the Folsom Historic Station. So, while the economy sputters along, the attractiveness and desirability of Folsom continues to spur new development and provides positive signals looking forward.

IMPACTS OF STATE ECONOMY - In addition to regional and local impacts, the City continues to monitor the impact of the State of California's fiscal issues. The State is facing a budget crisis that has yet to be resolved. The current projected \$20 billion state deficit represents approximately 28% of the state's general-fund budget, and reductions

are expected through a combination of furloughs, layoffs and other spending cuts, which will, in turn, adversely affect the local economy. We will continue to monitor the State's actions and analyze the potential impact on the city directly and on the local economy.

INDEPENDENT AUDIT - The City of Folsom's financial statements have been audited by Gilbert and Associates, Inc., a firm of licensed certified public accountants. The goal of the audit is to obtain reasonable assurance that the financial statements are free of material misstatements. Gilbert & Associates, Inc., concluded based on the audit, that there was a reasonable basis for rendering an unqualified opinion for the fiscal year ended June 30, 2009, and that the financial statements are presented in conformity with generally accepted accounting principles (GAAP). The independent auditors report is presented as the first component of the financial section of this report.

Federal and state financial assistance received by the City is audited under the provisions of the Single Audit Act of 1996, as amended. The Single Audit was designed to meet the special needs of federal grantor agencies. This report is available in the City's separately issued "Single Audit Report". Copies of this report may be obtained from the City of Folsom's Finance Department at 50 Natoma Street, Folsom, CA 95630.

SUMMARY

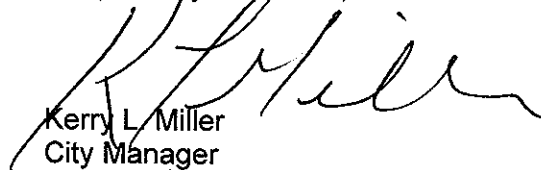

Awards: The City received the award for the prior fiscal year CAFR from the Government Finance Officers Association (GFOA) for "excellence in financial reporting" This is the twenty-first consecutive year the City has received the GFOA award and the current certificate appears immediately after the transmittal letter.

The FY 2008-09 CAFR has been submitted to the GFOA award program and management believes that, once again, it will meet the criteria for this distinguished reporting award.

Acknowledgement: The CAFR reflects the hard work, talent and commitment of the entire staff of the Finance Department, particularly Terri Hemley, Stacey Tamagni, Scott Denny, Marvin Davis and John Donoghue. We also want to thank the other members of the Department of Finance as well as those in other City Departments who assisted and contributed to the preparation of this report

Last, we deeply appreciate the dedication and leadership of the Mayor and Council members who have consistently set prudent financial goals, supported excellence in all aspects of financial management, and challenged us to succeed. Without this support and challenge we could not have achieved the successes we have had.

Respectfully submitted,

Kerry L. Miller
City Manager

James W. Francis
Chief Financial Officer/Finance Director

Certificate of Achievement for Excellence in Financial Reporting

Presented to

City of Folsom
California

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
June 30, 2008

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

INDEPENDENT AUDITOR'S REPORT

Honorable Mayor, City Manager
And Members of the City Council
City of Folsom, California

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Folsom, California, (the City), as of and for the year ended June 30, 2009, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the government activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City as of June 30, 2009, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 17, 2009, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

**Honorable Mayor, City Manager
And Members of the City Council
Page 2**

The Management's Discussion and Analysis, the schedules of funding progress and the budgetary comparison information listed as required supplementary information in the table of contents are not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The accompanying supplementary information – introductory section, other supplementary information, combining and individual nonmajor fund financial statements and schedules, and statistical section listed in the accompanying table of contents are presented for the purpose of additional analysis and are not a required part of the basic financial statements. The other supplementary information, combining and individual fund financial statements and schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the City's Comprehensive Annual Financial Report presents a narrative overview and analysis of the City's financial activities for the fiscal year ended June 30, 2009. We encourage readers to consider the information presented here in conjunction with the transmittal letter on page vii and the City's basic financial statements.

FINANCIAL HIGHLIGHTS

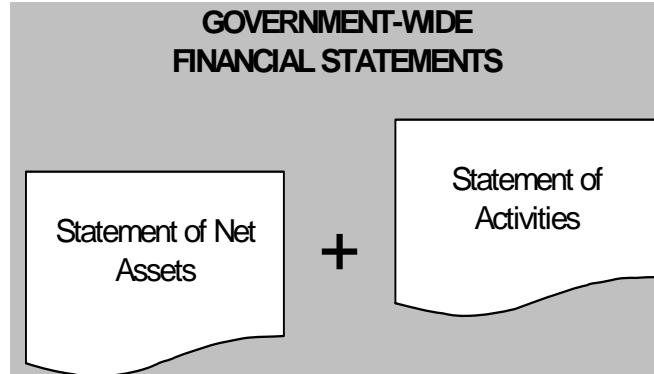

- The assets of the City exceeded its liabilities at the close of the Fiscal Year (FY) 2008-09 by \$437,992,726 (*net assets*). Of this amount, \$55,958,851 are unrestricted net assets, \$16,612,650 is restricted for specific purposes, and \$365,421,225 is invested in capital assets, net of related debt.
- The City's total net assets increased \$4,062,694 or 0.94% as compared to the prior year's amount.
- The City's total long-term debt decreased by \$14 million compared to the prior year, or 5.9%, during the current fiscal year. The decrease consisted of \$16.4 million of debt refunded, offset by \$12 million of new debt issuance by the Folsom Public Financing Authority and \$9.6 million of scheduled principal payments and capital lease payments.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City of Folsom's basic financial statements. The City of Folsom's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements

consist of the following two financial statements: the Statement of Net Assets and the Statement of Activities. Both of these statements were prepared using accounting methods similar to those used by private-sector companies, the economic resources measurement focus and the accrual basis of accounting. The statement of net assets presents information on all of the City's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities, on the other hand, provides information on how the City's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods, such as revenues pertaining to uncollected taxes and expenses pertaining to earned but unused annual and sick leave.

Both of these government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or in part a portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City include general government, public safety, public ways and facilities, community services and culture

MANAGEMENT’S DISCUSSION AND ANALYSIS – (Continued)

and recreation. The business-type activities of the City include water, wastewater, solid waste, transit, facilities augmentation and recreation.

Component units are included in our basic financial statements and consist of legally separate entities for which the City is financially accountable and that have the same board as the City Council. Blended component units include the Redevelopment Agency of the City of Folsom and the Folsom Public Financing Authority. Complete financial statements of the Redevelopment Agency of the City of Folsom and the Folsom Public Financing Authority may be obtained from the Finance Department of the City at 50 Natoma Street, Folsom, CA 95630.

Fund - a separate accounting entity with a self-balancing set of accounts.

Focus is on major funds.

Provides information regarding the three major categories of all City Funds:

Governmental, Proprietary, and Fiduciary.

Fund Financial Statements

The fund financial statements report on groupings of related funds that are used to maintain control over resources that have been segregated for specific activities or objectives. A fund is a separate accounting entity with a self-balancing set of accounts. Like other state and local governments, the City uses fund accounting to ensure and demonstrate finance related legal compliance. The focus of governmental and proprietary fund financial statements is on major funds as determined by the criteria set forth in Governmental Accounting Standards Board (GASB) Statement No. 34 “Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments,” (“GASB 34”). All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds – Governmental funds include most of the City’s basic services and are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental funds financial statements are prepared using the **current financial resources measurement focus** and **modified accrual basis of accounting**.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government’s near term financing decisions. Reconciliations are prepared for both the governmental funds’ Balance Sheet and the governmental funds’ Statement of Revenues, Expenditures and Changes in Fund Balances to facilitate comparisons between governmental funds and governmental activities. The primary differences between the government-wide and fund financial statements relate to noncurrent assets such as land and buildings and improvements, and non-current liabilities, such as bonded debt and amounts owed for compensated absences and capital lease obligations, which are reported in the government-wide statements but not in the fund financial statements.

In FY 2008-09, an increase of \$13,882,462 in net assets in the government-wide financial statements was reported, while a decrease of \$6,037,584 in fund balance was reported in the fund financial statements. Refer to the “Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities” for details on the factors contributing to this difference.

Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures and changes in fund balances for the General Fund, Folsom Redevelopment Agency Special Revenue Fund, Folsom Redevelopment

MANAGEMENT'S DISCUSSION AND ANALYSIS – (Continued)

Agency Debt Service Fund, Folsom Public Financing Authority, Folsom Redevelopment Agency Capital Projects Fund and the Transportation Improvement Capital Projects Fund which are considered major funds. In the current fiscal year, the Development Special Revenue Fund did not qualify as a major fund and is therefore presented in the other Governmental Funds column. This fund, along with various other special revenue funds, was combined with the General Fund during the fiscal year. The only activity in these funds at June 30, 2009 is the transfers needed to move all assets and liabilities to the General Fund. The Development Fund also has a remaining "due to other funds" balance of \$1.8 million, representing a deficit fund balance that will be absorbed by the General Fund in future budget years.

The City maintains several individual governmental funds organized according to their type (special revenue, debt service, and capital projects funds). Data from the remaining governmental funds are combined into a single aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of *combining statements* elsewhere in this report.

Proprietary funds are generally used to account for services for which the City charges customers – either outside customers, or internal units of departments of the City. Proprietary funds provide the same type of information as shown in the government-wide financial statements, only in more detail. *Proprietary funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City uses proprietary funds to account for the Water, Wastewater, Solid Waste, Transit, Facilities Augmentation and Recreation activities. During the fiscal year, the Recreation fund was combined with the General fund. The only activity in this fund at June 30, 2009 is the transfers needed to move all assets and liabilities to the General Fund.

Fiduciary funds are used to account for resources held for the benefit of parties outside the City. The City's agency funds are reported as fiduciary funds. Since the resources of these funds are not available to support the City's own programs, they are not reflected in the government-wide financial statements. The accounting used for fiduciary funds is much like that used for proprietary funds.

Notes to the Basic Financial Statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. To find a specific note, refer to the Table of Contents.

Required Supplementary Information is presented concerning the City's budgetary comparisons for the General Fund, Folsom Redevelopment Agency Special Revenue Fund, and the City's pension and post-employment health care benefit schedules to show progress in funding its obligation to provide these benefits.

Other Supplementary Information is presented concerning the City's budgetary comparisons for the Redevelopment Debt Service Fund and the Folsom Public Financing Debt Service Fund.

The **combining and individual fund statements and schedules** referred to earlier provide information for non-major governmental funds and fiduciary funds. They are presented immediately following the other supplemental information.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net assets may serve as a useful indicator of a government's financial position. At June 30, 2009, the City's combined net assets (governmental and business-type activities)

MANAGEMENT'S DISCUSSION AND ANALYSIS – (Continued)

totalled \$437,992,726, an increase of 0.94% from FY 2007-08 amounts. The two largest portions of the City's net assets are its investment in capital assets \$365,421,225 (83.43%) (e.g., land, buildings, machinery, and equipment) less any related debt used to acquire those assets that is still outstanding, restricted for specific purposes \$16,612,650 (3.79%) and unrestricted \$55,958,851 (12.78%). The City uses capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Net Assets - Primary Government June 30, 2009

Net assets, beginning of year	299,351,133	286,923,880	134,578,899	130,589,397	433,930,032	417,513,277
Net assets, end of year	\$ 313,233,595	\$ 299,351,133	\$ 124,759,131	\$ 134,578,899	\$ 437,992,726	\$ 433,930,032

Governmental activities: The City's governmental activities rely on several sources of revenue to finance ongoing operations. Charges for services and Property taxes comprised the largest revenue source for the City followed by capital grants and contributions. Charges for Services are revenues that arise from charges to customers or applicants who purchase, use, or directly benefit from the goods, services, or privileges provided. Examples of the types of services that fall under this category include building licenses and permits, business licenses, impact fees and park and recreation fees. Capital Grants and Contributions are monies received from parties outside the City and are generally restricted for use in capital activity.

At the end of FY 2008-09, total revenues for the governmental activities, excluding transfers from the business-type activities of \$8.2 million, was \$113,811,688, a decrease of approximately \$3.0 million from the previous year mostly due to decreases in Sales and use tax and investment earnings. Expenses totaled \$108,143,508, an increase of \$1.7 million from the prior year. Revenues exceeded expenditures and thus Governmental activities increased the City's net assets by \$13,882,462.

Overall program revenues increased by approximately \$964k. General revenues saw an overall decrease of approximately \$3.9 million primarily due to decreases in Sales and use tax and investment earnings.

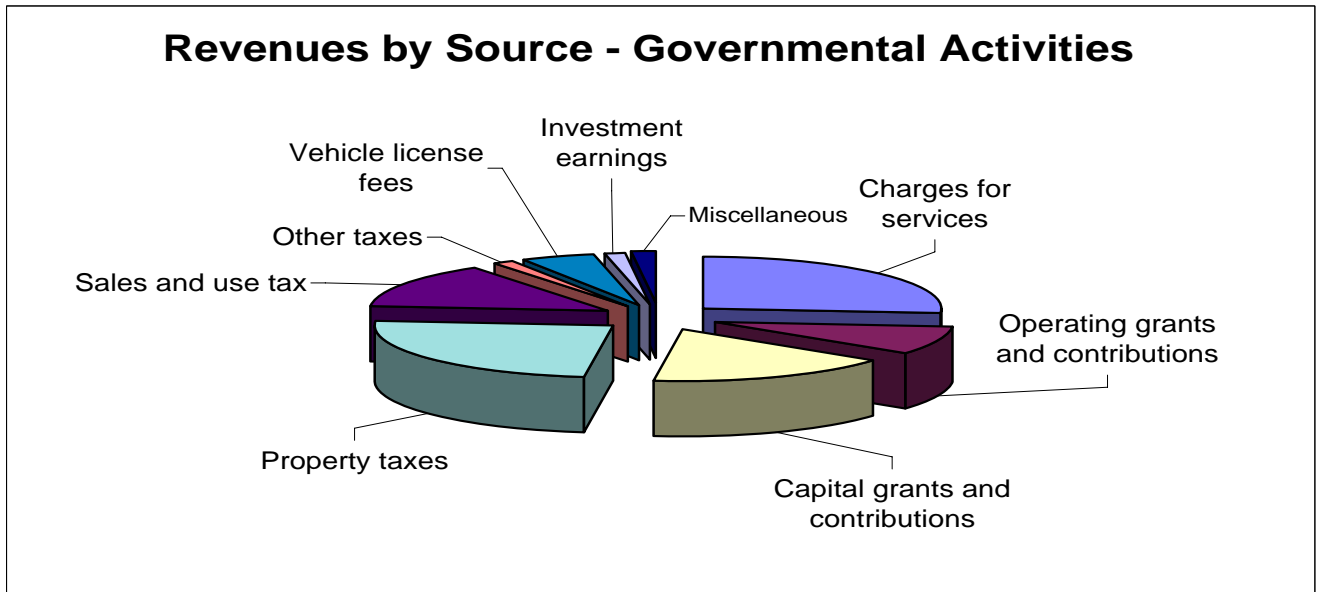

MANAGEMENT’S DISCUSSION AND ANALYSIS – (Continued)

The following chart presents a comparison of expenses by function and the associated program revenues for governmental activities.

Expenses and Program Revenues – Governmental Activities

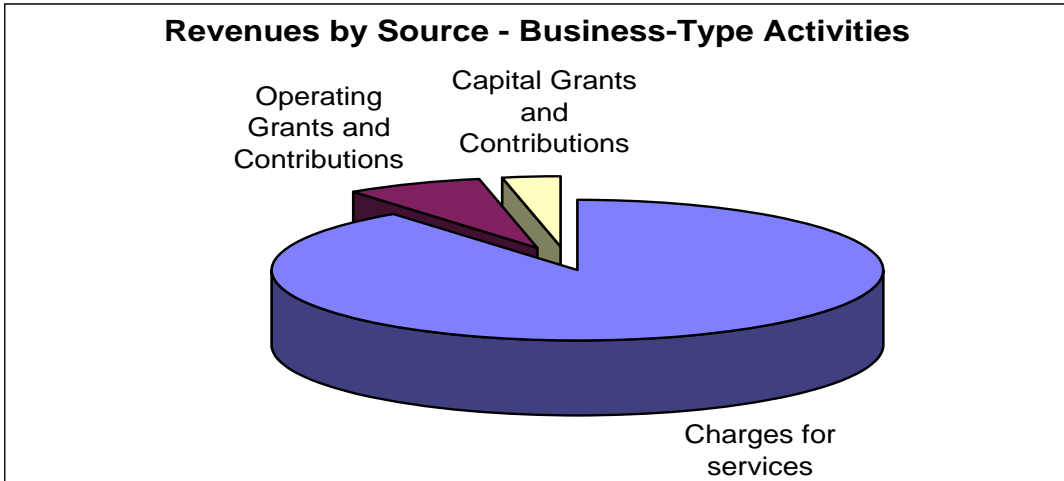

The chart below presents the percentage of total revenues by source for governmental activities.

Business-type activities: The City has six business-type activities: Water, Wastewater, Solid Waste, Transit, Facilities Augmentation and Recreation. In keeping with the intent of recovering all or a significant portion of their cost through user fees and charges, business-type activities reported Charges for Services as their largest source of revenues. Capital Grants and Contributions, as well as Operating Grants and Contributions, were the other revenue sources. Capital Grants and Contributions include revenues received from developers for capital infrastructure.

MANAGEMENT’S DISCUSSION AND ANALYSIS – (Continued)

Business-type activities decreased the City’s net assets by \$9,819,768. At the end of FY 2008-09, business-type activities reported total revenues, excluding transfers in from governmental activities, of \$31,774,726, a decrease of \$9.8 million from the prior year. The large decrease is due to Culture and recreation revenue now being reported in governmental activities and a \$5.96 million decrease in Capital contributions. Expenses totaled \$33.4 million, a decrease of \$2.2 million from the previous year. The program revenues (Charges for Services, Operating Grants and Contributions, and Capital Grants and Contributions) financed the majority of expenses recorded for the business-type activities. Other factors concerning the finances of the City’s five enterprise funds are discussed in the Proprietary Funds section of the “Financial Analysis of the City’s Funds.”

The following chart shows expenses by function and the associated program revenues for the business-type activities.

Expenses and Program Revenues – Business-Type Activities

MANAGEMENT'S DISCUSSION AND ANALYSIS – (Continued)

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

As noted earlier the City uses **fund accounting** to ensure and demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

Governmental funds: The focus of the City's governmental funds is to provide information on near-term inflows, outflows and balances of resources that are available for spending. Such information is useful in assessing the City's financial requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. Types of governmental funds reported by the City include the General Fund, Special Revenue Funds, Debt Service Funds, and Capital Projects Funds.

At the end of the current fiscal year, the City's governmental funds reported combined fund balances of \$190,284,034, a decrease of \$6,037,584 in comparison with the prior year. \$48,186,060 (25.2%) of this total amount constitutes *undesignated fund balance*, which is available for spending at the City's discretion. The remainder of the balance is *reserved and/or designated* to indicate that it is *not* available for new spending because it has been committed: 1) to pay debt service \$122,962,055 (64.6%); 2) Loans receivable \$5,313,825 (2.9%); 3) Encumbrances \$4,527,244 (2.4%); 4) Insurance Deposits \$3,974,548 (2.1%); 5) Budgeted projects \$2,192,390 (1.2%); 6) Low and moderate income housing \$2,002,967 (1.1%); and 7) Inventory and Land held for resale \$1,124,945 (0.6%).

Revenues and other financing sources for governmental functions totaled approximately \$164 million for the fiscal year ended June 30, 2009, which represents a decrease of 18.93% from the fiscal year ended June 30, 2008. This is mostly due to \$76.3 million of other financing sources received in FY 2007-08 for bond proceeds associated with the bond refunding in the Folsom Public Financing Authority. Expenditures and other financing uses for governmental functions totaled \$169,925,885, an increase of 17.46% from the prior year. The increase is mostly due to \$12.8 million in Payment to refunded escrow agent in FY 2008-09 associated with the bond refunding in the Folsom Public Financing Authority.

Comparative Analysis of Changes in Fund Balances

The following schedule presents a summary of revenues and other financing sources, expenditures and other financing uses, and the net changes in fund balances for the governmental funds for the current and previous fiscal years.

GOVERNMENTAL FUNDS
COMPARATIVE SCHEDULE OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES
For the Year Ended June 30, 2009

	Revenues and Other Financing Sources		Expenditures and Other Financing Uses		Net Change in Fund Balances	
	2009	2008	2009	2008	2009	2008
General Fund	\$ 82,981,322	\$ 64,830,943	\$ 84,783,266	\$ 69,382,658	\$ (1,801,944)	\$ (4,551,715)
Folsom Redevelopment Agency - Special Revenue Fund	8,121,630	8,067,054	11,955,621	6,102,924	(3,833,991)	1,964,130
Folsom Redevelopment Agency - Debt Service Fund	1,904,552	1,994,858	1,883,837	1,869,043	20,715	125,815
Folsom Public Financing Authority	20,510,535	77,956,343	22,974,199	10,672,485	(2,463,664)	67,283,858
Folsom Redevelopment Agency - Capital Project Fund	2,428,817	1,013,527	4,093,421	9,726,275	(1,664,604)	(8,712,748)
Transportation Improvement Fund	21,760,162	17,418,315	15,248,797	12,073,697	6,511,365	5,344,618
Other Governmental Funds	26,181,283	30,885,057	28,986,744	34,840,075	(2,805,461)	(3,955,018)
Total	<u>\$ 163,888,301</u>	<u>\$ 202,166,097</u>	<u>\$ 169,925,885</u>	<u>\$ 144,667,157</u>	<u>\$ (6,037,584)</u>	<u>\$ 57,498,940</u>

MANAGEMENT'S DISCUSSION AND ANALYSIS – (Continued)

In the governmental funds, expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met. As expenditures increase, revenues increase proportionately. In addition to the effects of expenditure-driven grants, the following information provides significant reasons for the change in fund balance.

Analysis of Major Governmental Funds

General Fund

The General Fund is the primary operating fund of the City. At the end of FY 2008-09 there was a decrease in fund balance of \$1,801,944, which resulted in a reserved and unreserved fund balance of \$5,637,081 and \$9,584,080 respectively. As a measure of the General Fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents 11% of total General Fund expenditures of \$84,783,266, while total fund balance represents 18% of that same amount.

General Fund revenues of \$59.8 million were up \$6.97 million or 13.2% higher than FY 2007-08 revenues of \$52.8 million. The table below provides a revenue comparison between Fiscal Years 2008-09 versus 2007-08.

	2009	2008	\$ Change	% Change
Property taxes	\$ 19,936,202	\$ 17,331,885	\$ 2,604,317	15.0%
Sales & use taxes	16,079,061	17,905,327	(1,826,266)	-10.2%
Transit occupancy	1,156,114	1,358,637	(202,523)	-14.9%
Real Property transfer	277,607	286,598	(8,991)	-3.1%
Other	272,337	271,126	1,211	0.4%
Licenses and permits	2,181,423	563,408	1,618,015	287.2%
Vehicle license fees	5,630,342	5,502,754	127,588	2.3%
Intergovernmental	360,371	549,481	(189,110)	-34.4%
Charges for current services	11,729,344	6,962,238	4,767,106	68.5%
Fines and forfeitures	438,462	358,724	79,738	22.2%
Interest	488,812	737,242	(248,430)	-33.7%
Miscellaneous	1,268,746	1,016,605	252,141	24.8%
	<u>\$ 59,818,821</u>	<u>\$ 52,844,025</u>	<u>\$ 6,974,796</u>	<u>13.2%</u>

Property tax revenues increased 15% over the prior fiscal year, due to the City's sluggish housing market. Sales tax revenues, a major portion of the General Fund budget, declined 10.2% over the same twelve month period in the prior year. The decrease is in line with regional and national trends due to the slowdown in vehicle sales, point-of-sale transactions and a drop in the residential real estate sector. Transient occupancy taxes (TOT) decreased by \$203k, or 14.9% over last year.

MANAGEMENT'S DISCUSSION AND ANALYSIS – (Continued)

General fund expenditures of \$73,791,442, excluding transfers out, increased by \$9.6 million or 14.9% over prior year expenditures of \$64.2 million. Public safety and public ways and facilities expenditures decreased 5.5% and 3.4%, respectively, over the prior year primarily due to reductions in services and supply costs, along with reductions in salary related costs. The increase in general government, community services and culture and recreation expenditures is largely due to movement of the Development and Recreation funds into the general fund.

Expenditures	2009	2008	\$ variance	% variance
General government	\$ 13,711,965	\$ 13,678,122	\$ 33,843	0.2%
Public safety	33,887,251	35,845,343	(1,958,092)	-5.5%
Public ways and facilities	8,408,037	8,706,038	(298,001)	-3.4%
Community services	4,293,286	-	4,293,286	
Culture and recreation	12,809,831	5,965,548	6,844,283	114.7%
Debt service principal payments	681,072	-	681,072	0.0%
	\$ 73,791,442	\$ 64,195,051	\$ 9,596,391	14.9%

The following shows the net change in fund balance for governmental funds for the current and previous year.

	2009	2008	\$ Variance
General Fund	15,221,161	17,023,105	(1,801,944)
Folsom RDA Spec.Rev.	15,527,470	19,361,461	(3,833,991)
Folsom RDA Debt Svc.	3,478,332	3,457,617	20,715

Folsom RDA Cptl. Prjct	(174,089)	1,490,515	(1,664,604)
Transp. Imprvmt	10,730,599	4,219,234	6,511,365
Other Gvrnmntl.	31,521,003	34,326,464	(2,805,461)
	190,284,034	196,321,618	(6,037,584)

Folsom Redevelopment Agency Special Revenue Fund

The Folsom Redevelopment Agency's governmental funds provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the Agency's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. Types of governmental funds reported by the Agency include special revenue, debt service and capital projects funds.

The Agency's special revenue funds consist of the Central Folsom Redevelopment Project Fund and the Low/Moderate Housing Fund. The unreserved fund balances as of June 30, 2009 and 2008 were \$9,198,403 and \$11,372,910, respectively. Tax increment revenues provide the majority of revenue.

As of June 30, 2009, the Agency's special revenue funds reported combined ending fund balances of \$15,527,470, a decrease of \$3,833,991 in comparison with the prior fiscal year.

Revenues for governmental functions overall totaled \$8,121,630 in FY 2008-09, which represents an increase of \$54,576 in comparison with the prior fiscal year and is primarily due to an increase in tax increment revenue offset by a decrease in interest revenue. Expenditures for

MANAGEMENT'S DISCUSSION AND ANALYSIS – (Continued)

governmental functions, totaling \$11,955,621, increased by \$5,852,697 from the prior fiscal year, primarily due to increased OPA payments relating to the Sutter Street OPA and increased transfers associated with spending in the RDA Capital Projects Fund. For additional information please refer to the separately issued financial statements.

Folsom Redevelopment Agency Debt Service Fund

The Folsom Redevelopment Agency debt service fund is used to account for the debt service in the Redevelopment Agency of the City of Folsom, Central Folsom Redevelopment Project Area. Major expenditures for the fiscal year included principal payments of \$525,000 and interest and fiscal charges of \$1,351,435.

Folsom Public Financing Authority Debt Service Fund

The Folsom Public Financing Authority's (FPFA) governmental debt service fund provides information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the Authority's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. The unreserved fund balances as of June 30, 2009 and 2008 were \$0 and \$257,001 respectively. As of June 30, 2009 and 2008, the Authority's governmental debt service fund reported combined ending fund balance of \$113,979,558 and \$116,443,222 respectively, a decrease of \$2,463,664 in comparison with the prior fiscal year.

Revenues for FPFA's governmental functions overall totaled \$20,510,535 in FY 2008-09, and represent a decrease of \$57,445,808 in comparison with the prior fiscal year. This is due to \$70 million in proceeds from the issuance of Special Tax Revenue Bonds issued during the prior fiscal year compared to \$11.95 million issued in the current year. Expenditures and other financing uses for governmental functions totaling \$22,974,199 increased by \$12,301,714 from the prior fiscal year due to payment to refunded escrow agent related to the bond issuance. For additional information please refer to the separately issued financial statements.

Folsom Redevelopment Capital Projects Fund

This fund is used to account for construction proceeds of the Redevelopment Agency of the City of Folsom, Central Folsom Redevelopment Project Area Tax Allocation Bonds 1987 Series A, 1991 Series, and 2006 Series. The proceeds of the 2006 Series Bonds are being used to fund the construction of a multi-level parking structure on the Railroad Block and the Folsom Railroad Block Public Plaza. For FY 2008-09, expenditures totaled \$4,093,421.

Transportation Improvement Capital Projects Fund

The Transportation Improvement Capital Projects Fund is used to account for long-term major road projects financed through developer mitigation charges, to account for construction of light rail transportation projects, and to account for construction of the new bridge below Folsom dam. Revenues in the Transportation Improvement Capital Projects Fund exceeded expenditures by approximately \$6.5 million and were the result of intergovernmental revenues related to prior year expenditures that were reimbursed during fiscal year 2008-09.

MANAGEMENT'S DISCUSSION AND ANALYSIS – (Continued)

Proprietary Funds

Water Fund

Net assets of the Water Fund decreased by \$4 million in FY 2008-09. Operating revenue for FY 2008-09 was \$12.4 million, an increase of \$1.3 million, mostly due to a water rate increase in April 2008; while operating expenditures increased \$3.7 million to \$13.3 million. The increased operating expenditures were primarily due to increased contractual expenditures for water meter installation. Capital contributions declined by \$4.4 million due to minimal private development during the fiscal year. Net transfers were \$1,610,940, an increase of \$395,692 from prior year levels. As of June 30, 2009, the fund's net assets were \$81.6 million, of which \$76.4 million was invested in capital assets, while the remaining \$5.2 million was unrestricted.

Wastewater Fund

Operating revenues were at \$5.8 million, an increase of \$376,661 from the prior year. Operating expenses were at \$3.9 million, an increase of \$14,366 from the prior year. The net result was operating income of \$1.9 million. Other items which affected net assets were capital expenditures of \$1.07 million, capital contributions of \$81k and other non-operating revenues of \$203k. The total decrease to net assets in FY 2008-09 was \$793k for a total of \$39.1 million. As of June 30, 2009, of the Fund's net assets, \$36.0 million was invested in capital assets, and the remaining \$3.1 million was unrestricted.

Solid Waste Fund

Operating revenues were at \$9.8 million, a decrease of \$783,692 from the prior year. Operating expenses were at \$10.2 million, an increase of \$1.4 million from the prior year. The net result was an operating loss of \$343k. The total decrease of net assets in FY 2008-09 was \$1.1 million for total net assets at the end of the year of \$1.5 million. As of June 30, 2009, of the Fund's net assets, \$1.06 million was invested in capital assets, and the remaining \$457k was unrestricted.

The following schedule presents a summary of revenues and other financing sources, expenditures and other financing uses, and the net changes in fund balances for the proprietary funds for the current and previous fiscal years.

	Revenues and Other Financing Sources		Expenditures and Other Financing Uses		Net Change in Fund Balances	
	2009	2008	2009	2008	2009	2008
Water	\$ 13,378,547	\$ 16,772,947	\$ 17,396,776	\$ 15,505,994	\$ (4,018,229)	\$ 1,266,953
Wastewater	6,162,579	7,191,564	6,955,277	5,655,888	(792,698)	1,535,676
Solid Waste	10,907,690	10,866,693	12,048,793	10,416,511	(1,141,103)	450,182
Other Enterprise Funds	5,382,807	9,376,161	9,250,545	8,639,470	(3,867,738)	736,691
Total	<u>\$ 35,831,623</u>	<u>\$ 44,207,365</u>	<u>\$ 45,651,391</u>	<u>\$ 40,217,863</u>	<u>\$ (9,819,768)</u>	<u>\$ 3,989,502</u>

MANAGEMENT'S DISCUSSION AND ANALYSIS – (Continued)

GENERAL FUND BUDGETARY HIGHLIGHTS

Over the course of the year, the City Council revised the City budget to recognize changes made to adjust current year revenues and appropriations for updated projections and to adjust appropriations for use of prior year department carryover.

The major changes from the approved budget were increases in expenditure budgets to augment capital projects and for programming one-time projects from fund balance designations.

After taking into account these adjustments, actual expenditures were \$4.3 million lower than final budget amounts. All expenditure categories except for Culture and recreation were less than current year budget appropriations due to savings in contracts, services and supplies and salary and benefit savings resulting from furloughs and vacant positions.

Revenues were \$59.8 million or 91% of budgeted amounts. The shortfall from budgeted amounts resulted from a few factors. The first factor is sales tax collections, which ended the fiscal year at 90% of budget, or \$16.1 million. Below budget collections are in line with regional and national trends due to the slowdown in vehicle sales, point-of-sale transactions and a drop in the residential real estate sector. The second factor is charges for current services which came in \$1.6 million less than budgeted due to lower than anticipated revenue for structure plan check fees, engineering fees and recreation fees, and the third factor is miscellaneous revenue which was \$5.04 million below budget.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets:

The City's investment in capital assets for its governmental and business-type activities as of June 30, 2009, amounted to \$461.2 million (net of accumulated depreciation). This investment in capital assets includes land, infrastructure, structures and improvements, vehicles, equipment and construction in progress. The total increase in the City's capital assets for the current fiscal year was 1% as shown in the table below.

Capital assets for the governmental and business-type activities are presented below to illustrate the changes from the prior year:

CAPITAL ASSETS
(Net of Depreciation)
June 30, 2009

	Governmental Activities		Business-Type Activities		Total		Increase (Decrease) % Change
	2009	2008	2009	2008	2009	2008	
Land	\$ 18,026,124	\$ 17,045,325	\$ 1,033,791	\$ 2,014,590	\$ 19,059,915	\$ 19,059,915	0%
Construction in progress	51,350,684	55,165,609	-	5,535,994	51,350,684	60,701,603	-15%

MANAGEMENT'S DISCUSSION AND ANALYSIS – (Continued)

This year's major capital asset additions included the following:

- Construction expenditures of \$10.6 million relating to the new bridge below Folsom Dam. The bridge, officially named "Folsom Lake Crossing" opened to traffic in March of 2009. The new bridge includes a four-lane bridge and roadway with bike lanes from East Natoma Street to Folsom-Auburn Road below the existing Folsom Dam. Funding for the bridge is provided through federal funds and Measure A sales tax revenues.
- Construction expenditures of \$1.5 million for the Railroad Block Public Plaza and parking structure.
- Construction expenditures of \$2.0 million for the Water Main Replacement project.

Additional information on the City's capital assets can be found in Note 6 of this report.

Long-term debt

As of June 30, 2009, the City had \$195,779,271 of outstanding long-term debt related to governmental activities and \$31,302,577 of long-term debt related to business-type activities, for a total of \$227,081,848. During the year, \$30.2 million of long-term debt was retired, while \$18.1 million was added, resulting in a net decrease of 6%. The City's debt obligations are in the form of general obligation bonds, certificates of participation, revenue bonds, tax allocation bonds, owner participation agreements, capital lease obligations, notes payable, compensated absences, landfill closure costs and deferred amounts for issuance discounts.

At the end of the current fiscal year, the City had total bonded debt outstanding of \$207,100,000. Of this amount, \$20,665,000 is backed by the full faith and credit of the City. The remainder of the City's bonded debt represents bonds secured solely by the specified revenue sources. The City Redevelopment Agency also has Owner Participation Agreements totaling \$2,243,348.

The following table summarizes the City's outstanding debt at June 30, 2009:

LONG-TERM LIABILITIES June 30, 2009

	Governmental Activities		Business-Type Activities		Total		Increase (Decrease) % Change
	2009	2008	2009	2008	2009	2008	
General obligation bonds	\$ 20,665,000	\$ 23,110,000	\$ -	\$ -	\$ 20,665,000	\$ 23,110,000	-11%
Certificates of participation	5,835,000	7,065,000	-	-	5,835,000	7,065,000	-17%
Revenue bonds	121,800,000	126,205,000	28,730,000	29,480,000	150,530,000	155,685,000	-3%

MANAGEMENT'S DISCUSSION AND ANALYSIS – (Continued)

The following summarizes the City's long-term debt activity during FY 2008-09:

- In July 2008, the Folsom Public Financing Authority issued \$11,955,000 Reassessment Revenue Bonds, Series 2008, with interest rates of 3.00% to 5.00%. The bonds were issued to provide funds to finance the purchase of the City of Folsom Limited Obligation Refunding Bonds, Prairie Oaks Reassessment District No. 2008-01 (the "Local Obligations"), to fund a reserve fund, and to pay certain costs of issuance. The Local Obligations were issued to refund and defease the Folsom Public Financing Authority 1997 Special Assessment Revenue Bonds, Series A and Subordinated Series B.

Credit Rating

As of June 30th, 2009 the City's General Obligation Bonds are rated at AA-/Stable by Standard & Poor's, and are rated A1 by Moody's Investor Services. The City's Certificates of Participation (COP's), issued to finance essential facilities such as the 1999 Recreation Facility and the 2001 Central Business District Fire Station, are rated A+ by Standard & Poor's. The 1998 Water Bonds are rated A2 by Moody's. Subsequent to the end of the City's fiscal year, Standard & Poor's upgraded their ratings for the General Obligation Bonds and Certificates of Participation to AA and AA-, respectively, citing the City's strong financial management and diverse economic base as key factors.

The City has typically opted to purchase bond insurance to enhance its credit rating to AAA. A bond insurance policy guarantees payment of principal and interest on bonds due for payment should the City fail to make a bond payment. Beginning late 2007 through now all monoline insurers who insure municipal debt have either been downgraded or placed under review by the various ratings agencies; therefore, an AAA rating is no longer assured on these insured bonds.

A major portion of the City's financings has been through the issuance of special assessment district debt. These 1915 Act and Mello-Roos district bonds are land secured financings where developments are not yet completed at the time of issuance, and are therefore not rated at the time of the original issuance. However, most of these financings within the City have subsequently been refunded and have received ratings. In FY 2009 the City refunded Prairie Oaks Assessment District, receiving an A rating by Standard & Poor's.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

Economic Factors

With the slow recovery in the economy, the City faces significant fiscal challenges. These include:

- Continued increases in labor, health care and pension costs.
- State budget actions are certain to affect the City. City property tax revenue may be reduced; grant funding is at risk.
- The City will not be immune from the budget actions of other governmental agencies. City residents depend on County services, and City departments are affected by reductions in County services. The County is largely dependent on the Federal and State governments for program funding. Federal and State budget actions that affect the County may adversely affect the City.

MANAGEMENT'S DISCUSSION AND ANALYSIS – (Continued)

Economic factors that may affect the City in the longer term include:

- The slowing real estate market, on both the national and regional level, is well publicized. The change in the local market is having significant impact on tax revenues as the rate of growth in property taxes is smaller than in recent years.
- In the current fiscal year the City is realizing reductions in sales tax revenue.
- Meanwhile, the costs of doing business have increased and the City is absorbing anticipated employee benefit costs.

Next Year's Budget

The City closed the fiscal year in a positive financial position, with a General Fund balance of \$15,221,161, a decrease of \$1.8 million over the prior year. While the General Fund remains in a positive position, expenditures exceeded revenues in the current fiscal year, creating a structural deficit. City management will continue to monitor the General Fund's position and report to Council on a quarterly basis.

The General Fund budget for 2010 appropriates approximately \$71.4 million, a decrease of 9% over the prior year. General Fund revenue for 2010 is projected to be \$68.4 million, a decrease of 18% over 2009. This decrease is partially due to significant transfers-in in FY 2009 due to the consolidation of funds mentioned previously. Staff's efforts will focus on utilizing existing resources as efficiently and effectively as possible.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the City's finances. We hope that the preceding information has provided you with a general overview of the City's overall financial status. For questions or comments concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Director, 50 Natoma Street, Folsom, CA 95630, (916) 355-7200 or visit the City's website at www.folsom.ca.us.

NET CHANGE IN FUND BALANCE

FUND BALANCE, BEGINNING OF YEAR

FUND BALANCE, END OF YEAR

The notes to the basic financial statements are an integral part of this statement.

CITY OF FOLSOM, CALIFORNIA

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2009

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental \$ (6,037,584)

Governmental funds report capital outlay as expenditures. However, in the statement of activities the costs of these assets are allocated over their estimated useful lives and reported as depreciation expense. Capital outlays and depreciation expense are as follows:

Capitalized capital outlays	18,114,667
Depreciation expense	(13,351,616)
Reclassification of capital assets from Enterprise funds to governmental	6,168,899

Governmental funds report debt issuance costs (deferred charges) as part of debt service expenditures, whereas these costs are deferred and amortized in the Government-Wide Statement of Activities.

567,354

Premiums, discounts, and other charges related to long-term debt are expended in the year of issuance by governmental funds. However, these costs are deferred and amortized in the statement of activities. This amount reflects the amortization of premiums, discounts, and other deferred charges.

33,836

Long-term debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Assets. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Assets.

Principal repayments on long term debt	11,930,841	
Change in compensated absences	222,005	
Proceeds from issuance of long-term debt	(11,955,000)	
Payment to refunded escrow agent	12,822,662	
Bond discount	115,411	
Change in accrued interest	60,091	
Change in post-employment benefit obligation	(1,710,516)	
Issuance costs	310,252	
Reclassification of debt due to movement of funds	<u>(3,119,578)</u>	<u>8,676,168</u>

Internal service funds are used by management to charge the costs of fleet management, management information services, facilities costs, and insurance, to individual funds. The net revenue (expense) of certain activities of the Internal Service Funds is reported with Governmental Activities.

(289,262)

CHANGE IN NET ASSETS OF GOVERNMENTAL ACTIVITIES

City of Folsom

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2009

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity – The City of Folsom, California (City) was incorporated in 1946 under the general laws of the State of California. The City’s charter was adopted on March 6, 1990. The City operates under a Council-Manager form of government consisting of five elected council members including the mayor and a council appointed City Manager. The City provides the following services as authorized by its charter: public safety (Police and Fire), highways and streets, water, wastewater, solid waste, storm water utility, public improvements, parks and recreation, planning and zoning and general administration.

As required by accounting principles generally accepted in the United States of America and Governmental Accounting Standards Board (GASB) Statement 14, as amended by GASB Statement 39, these financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Blended component units, although legally separate entities are, in substance, part of the government’s operations and so data from these units are combined with data of the primary government. Each blended component unit has a year-end of June 30.

Blended Component Units - The **Redevelopment Agency** of the City of Folsom (Agency) is a community redevelopment agency formed, organized and existing pursuant to the provisions of the Community Redevelopment Law of the State of California (California Health and Safety Code, Section 33000 et seq.) and was formed on August 1, 1983. The primary purpose of the Agency is to prepare and carry out plans for improvement, rehabilitation and redevelopment of blighted areas within the City. City Council members in concurrent sessions serve as the governing board of the Agency, and all accounting and administrative functions are performed by the City. The Agency is reported in the City’s fund financial statements as a special revenue fund, capital project fund, and a debt service fund, as well as in the City’s government-wide financial statements.

In order to facilitate the financing of public improvements, as well as other facilities and improvements which will be funded through the issuance of tax exempt bonds, the City Council established a joint powers authority known as the **Folsom Public Financing Authority** (FPFA) on September 19, 1988, pursuant to the provisions of the joint powers laws of the state of California, as set forth in Article 1, Chapter 5, Division 7 of Title 1 of the California Government Code (commencing with Government Code Section 6500). The FPFA is authorized, but not limited, to issue bonds pursuant to the provisions of the Marks-Roos Local Bond Pooling Act of 1985, as set forth in Article 4, Chapter 5, Division 7, Title 1, of the California Government Code (commencing with Government Code Section 6584) for the purpose of financing facilities and improvements. The FPFA is reported in the City’s fund financial statements as a debt service fund, consistent with the National Council on Governmental Accounting (NCGA) Statement No. 5 and GASB Statement 14, as amended by GASB Statement 39. Capital leases between the primary government and blended component units are eliminated. Interfund long-term debt between the City and the FPFA remains on the combined balance sheet. Amounts held for repayment of the local obligation bonds are reported as investments held in trust of the FPFA.

The City accounts for the various debt service and capital projects funds resulting from the bonds issued. The long-term borrowing is used to provide the interim financing for accomplishing the purposes described above. The District’s primary source of revenue for

City of Folsom

NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED JUNE 30, 2009

repayment of the debt, other than loans and advances from the City, are from the assessment of a "special tax" against the property owners within the district and project areas. Collections of the special tax are deposited with the fiscal agent for the debt service of the bonds.

Separate audited component unit financial statements for the Agency and FPFA may be obtained from the entities respective administration office as follows:

Redevelopment Agency of the City of
Folsom
50 Natoma Street
Folsom, CA 95630

Folsom Public Financing Authority of the
City of Folsom
50 Natoma Street
Folsom, CA 95630

Joint Powers Agencies - The City also has ownership interests in the Northern California Cities Self Insurance Fund (NCCSIF). This entity has not met the component unit criteria stated above, and its financial information is not combined with that of the City, although the City's deposit in this entity has been included in the financial statements as insurance deposits.

Government-wide and Fund Financial Statements - The government-wide financial statements (i.e. the statement of net assets and statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been eliminated from the government-wide financial statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type* activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported in separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting and Basis of Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary funds financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements are met.

Fiduciary funds, however, are unlike other funds as they are used to account for assets that the City holds on behalf of others as their agent. Thus Fiduciary Funds have no measurement focus, but use the accrual method of accounting to report assets and liabilities.

City of Folsom

NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED JUNE 30, 2009

Revenues are recognized for utility funds based on billings rendered to customers. The City accrues revenues for services provided but not yet billed at the end of a monthly fiscal period.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments are recorded only when payment is due.

For this purpose, the City considers intergovernmental revenues, which are primarily grants and subventions, received as reimbursement for specific purposes or projects to be available if they are expected to be received within the upcoming year to repay interfund liabilities incurred as a result of borrowing cash in order to pay the expenditures. Other major revenues in accordance with GASB Statement No. 22, "Accounting for Taxpayer Assessed Tax Revenues in Governmental Funds" are considered to be available if they are collected within 60 days of the end of the current fiscal period. Revenues considered to be available include sales, transient occupancy, gas, and utility user taxes, franchise fees, interest and intergovernmental revenues, which are virtually unrestricted as to purpose of expenditure and revocable only for failure to meet prescribed compliance requirements. All other revenue items, such as business licenses and fines and penalties, are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental funds:

The **General Fund** is the primary operating fund of the City. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The **Folsom Redevelopment Agency Special Revenue Fund** is used to account for the revenue and expenditures of the Redevelopment Agency of the City of Folsom, except for debt service and bond proceeds.

The **Folsom Redevelopment Agency Debt Service Fund** is used to account for the debt service on the Redevelopment Agency of the City of Folsom, Central Folsom Redevelopment Project Area Refunding Allocation Bonds

The **Folsom Public Financing Authority Debt Service Fund** is used to account for the proceeds of specific revenues that are legally restricted for expenditures for specified purposes, including housing and community development.

The **Folsom Redevelopment Agency Capital Projects Fund** is used to account for long-term redevelopment projects of the Redevelopment Agency of the City of Folsom, Central Folsom Redevelopment Project Area.

The **Transportation Improvement Capital Projects Fund** is used to account for long-term major road projects financed from developer mitigation charges and Measure A funding.

City of Folsom

NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED JUNE 30, 2009

The City reports the following major enterprise funds:

Water Enterprise Fund is used to account for water utility operations of the City.

Wastewater Enterprise Fund is used to account for wastewater utility operations of the City.

Solid Waste Enterprise Fund is used to account for solid waste utility operations of the City.

Additionally, the City reports the following fund types:

Internal Service Fund, made up of the Equipment Replacement fund, is used to account for replacement of general governmental equipment.

Fiduciary Funds account for assets held in agency funds by the City as an agent for various bonded assessment districts.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments have the *option* following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to the same limitation. The City has elected not to follow subsequent private-sector guidance.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are exchange or exchange-like transactions between functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenue. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principle operating revenues of the City's enterprise funds and internal service funds are charges to customers or other funds for sales and services. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, and then unrestricted resources as they are needed.

Budgetary Data

The City's annual budget is adopted by the City Council on or before the last working day of the last month of the fiscal year on a basis consistent with U.S. generally accepted accounting principles. If the City Council fails to adopt the budget by this date the budget proposed by the City Manager shall be deemed adopted. The City Manager may transfer monies between departments and divisions, and programs and accounts within departments and divisions, but

City of Folsom

NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED JUNE 30, 2009

only the Council by resolution may transfer monies between funds and from un-appropriated balances or fund balances to any fund or appropriation account. The level of control (i.e., the level at which expenditures may not legally exceed appropriation) is the fund. All appropriations remaining at year-end lapse, except purchases in progress, open project appropriations and unexpended grant appropriations.

Budget information is adopted on an annual basis for the General Fund, special revenue funds and debt service funds. The budget is adopted on a project length basis for capital projects funds. The following procedures are followed in establishing the budgetary data reflected in the financial statements:

- A. Department Heads prepare a budget request based upon the previous year's expenditures.
- B. Meetings are held between the Department Heads, Chief Financial Officer, and the City Manager for the purpose of reviewing and prioritizing budget requests.
- C. The City Manager submits the proposed city budget to the City Council, who makes decisions regarding department budgets.
- D. Transfers between funds and changes in the total budget must be approved by the City Council.

Financial Statement Elements

Cash, Cash Equivalents and Investments – City investments are recorded at fair value, except guaranteed investment contracts, which are recorded at cost. The City pools cash resources from all funds in order to facilitate the management of cash and achieve the goal of obtaining the highest yield with the greatest safety and least risk. The balance in the pooled cash account is available to meet current operating requirements. Cash in excess of current requirements is invested in various interest-bearing accounts and other investments for varying terms.

The City participates in an external investment pool managed by the State of California titled California Local Agency Investment Fund (LAIF), established under California State Statute, which has invested a portion of the pool funds in Structured Notes and Asset-Backed Securities. LAIF is not registered with the Securities and Exchange Commission. LAIF falls under the regulatory oversight of the State of California. Based on information obtained from the State of California, the investment in LAIF has been recorded at fair value.

For purposes of the statement of cash flows, the City considers all highly liquid investments (including restricted assets) with a maturity of 90 days or less to be cash and cash equivalents. Cash and cash equivalents include: LAIF, demand deposits, short-term highly liquid investments including Treasury bills, commercial paper, certificates of deposit, money market funds, and cash management pools. Cash held with fiscal agents with a maturity of three months or greater are not included as cash and cash equivalents.

In accordance with GASB Statement No. 40, *Deposit and Investment Disclosures (Amendment of GASB No. 3)*, certain disclosure requirements, if applicable, for Deposits and Investment Risks are specified in the following areas:

- Interest Rate Risk
 - Credit Risk
- Overall

City of Folsom

NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED JUNE 30, 2009

- Custodial Credit Risk
- Concentrations of Credit Risk
- Foreign Currency Risk

In addition, other disclosures are specified including use of certain methods to present deposits and investments, highly sensitive investments, credit quality at year-end and other disclosures.

Property Taxes - Article XIII of the California Constitution (Proposition 13) limits ad valorem taxes on real property to one percent of value plus taxes necessary to pay indebtedness approved by voters prior to July 1, 1978. The Article also established the 1975/76 assessed valuation as the base and limits annual increases to the cost of living, not to exceed two percent, for each year thereafter. Property may also be reassessed to full market value after sale, transfer of ownership, or completion of new construction. The State is prohibited under the Article from imposing new ad valorem, sales, or transactions taxes on real property. Local government may impose special taxes (except on real property) with the approval of two-thirds of the qualified electors. Property taxes are receivable and recorded in the fiscal year for which the tax is levied. Revenue is recognized when measurable and available. Property taxes collected in advance are recorded as deferred revenue and recognized in the year they become available. The County of Sacramento levies, bills and collects property taxes for the City. Property taxes paid to the City by the County within 60 days after the end of the fiscal year are "available" and are, therefore, recognized as revenue.

Secured and unsecured property taxes are levied based on the assessed value as of March 1, the lien date, of the preceding fiscal year. Secured property tax is levied on September 30 and due in two installments, on November 1 and February 1. Collection dates are December 10 and April 10, which are also the delinquent dates.

Receivables and Payables - Property, sales and use taxes related to the current fiscal year are accrued as revenue and accounts receivable and considered available if received within 60 days of year-end. Federal and State grants are considered receivable and accrued as revenue when reimbursable costs are incurred under the accrual basis of accounting in the government-wide statement of net assets. Loans receivable represent lending to support low and moderate income housing units. The amount recognized as revenue under the modified accrual basis is limited to the amount that is deemed measurable and collectible.

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a reservation of fund balance for noncurrent assets in governmental funds to indicate they do not constitute resources available for appropriation.

Inventories— General fund inventories are recorded as expenditures when consumed rather than when purchased. These inventories are valued at average cost using the first-in first-out method. Inventories, as reported in the fund financial statements, are offset by a reservation of fund balance to indicate they do not constitute resources available for appropriation.

City of Folsom

NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED JUNE 30, 2009

Insurance deposits – Amounts advanced by the City to the insurance joint powers authority to provide for payment of claims within the City's self-insured retention layer ("banking layer") are accounted for using the deposit method and are reported as insurance deposits in the City's general fund to the extent that cumulative payments to the pool are more than cumulative paid and unpaid claims. To the extent that cumulative payments to the pool are less than required to pay cumulative paid and unpaid claims, the City would report an outstanding claim liability. These advances are refundable to the extent that outstanding claims and expenses under the terms of its contract have been satisfied.

Land held for resale – Represents land acquired by the City's Redevelopment Agency.

Restricted Assets - Certain proceeds of debt issues, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants. In addition, funds have been restricted for future facilities augmentation costs.

Investments Held in Trust - Represent the investments held for repayment of special assessment district's debt.

Capital Assets – Capital assets, which include land, buildings, improvements, equipment and infrastructure assets (e.g. roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities column in the government-wide financial statements. The City defines capital assets, as assets with an initial, individual cost of more than \$5,000. Capital assets are recorded at the lower of actual historical cost or fair market value (as of the date donated for contributed assets) although for certain older assets estimated historical costs are used.

The costs of normal maintenance and repairs that do not add value to the asset or materially extend assets lives are not capitalized.

Costs of assets sold or retired (and related amounts of accumulated depreciation) are eliminated from the accounts in the year of sale or retirement and the resulting gain or loss is included in the operating statement of the related fund. In governmental funds, the sale of general capital assets is included in the statement of revenues, expenditures and changes in fund balances as proceeds from sale.

Capital assets are depreciated using the straight-line method over the following useful lives:

	<u>Years</u>
Specialty equipment and vehicles	3-20
Computer and office equipment	3-7
Construction equipment	10-20
Buildings, facilities and improvements	10-40
Roads (surface only)	10-20
Utility underground systems	33-40
Bridges	99

Compensated Absences – Compensated absences are recorded in accordance with GAAP. Only vested or accumulated compensated absences that are expected to be due or mature are reported as an expenditure and fund liability of the governmental fund that will pay it. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements. Amounts of vested or accumulated

City of Folsom

NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED JUNE 30, 2009

compensated absences that are not expected to be liquidated with expendable available financial resources are reported in the governmental activities of the Government-Wide Financial Statement. Vested or accumulated compensated absences of proprietary funds are recorded as an expense and liability of those funds as the benefits accrue to employees.

All employees currently earn a combined annual leave in lieu of vacation and sick leave, in an amount determined by their representing labor group or contract. Management employees receive ten days of management leave annually, which does not carry over. Overtime may be accrued by non-management employees as compensatory time. Some employees retain sick leave banks earned prior to the annual leave implementation. It is City policy that an employee may carry over accrued vacation and sick leave into the following calendar year. Upon termination, employees are entitled to a lump-sum payment for accrued annual leave hours and compensatory time.

Sick leave is deemed to be vested upon minimum PERS retirement age. Accumulated vested sick leave is paid according to the Memorandum of Understanding covering each employee. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Unearned Revenue - Unearned revenue in governmental funds arise when potential revenue does not meet both the measurable and available criteria for recognition in the current period. Unearned revenues also arise when the City receives resources before it has legal claim to them, (i.e., when grant monies are received prior to the incurrence of qualifying expenditures).

Long-term Obligations - In the government-wide financial statements and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable statement of net assets. Bond premiums and discounts as well as issuance costs, are deferred and amortized over the life of the bonds using the straight line method. Gains and losses on debt refunding are deferred and amortized over the life of the related debt using the straight-line method. Bonds payable are reported net of bond premium or discount and net of gains and losses on debt refunding. Bond issuance costs are reported as deferred charges and amortized over the life of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures.

Encumbrances – Encumbrance accounting, under which purchase orders, and other commitments for the expenditure of funds are recorded in order to reserve that portion of fund balance, is employed in the governmental fund types. Encumbrances are reported as reserved fund balance since they do not constitute expenditures or liabilities.

Fund Equity - In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative plans by City Management for future use of financial resources.

City of Folsom

NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED JUNE 30, 2009

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

Effects of New Pronouncements -

The following summarizes recent GASB pronouncements and their impact, if any, on future financial statements:

GASB Statement No. 51, "Accounting and Financial Reporting for Intangible Assets," establishes accounting and financial reporting requirements for intangible assets including easements, water rights, timber rights, patents, trademarks, and computer software.

GASB Statement No. 52, "Land and Other Real Estate Held as Investments by Endowments," establishes standards for accounting and financial reporting for land and other real estate held as investments by endowments.

GASB Statement No. 53, "Accounting and Financial Reporting for Derivative Instruments," addresses the recognition, measurement, and disclosure information regarding derivative instruments entered into by state and local governments. The requirements of GASB 53 are effective for fiscal periods beginning after June 15, 2009.

GASB Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions," was established to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund type definitions. This Statement establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. The requirements of this statement are effective for fiscal periods beginning after June 15, 2010.

2. CASH, CASH EQUIVALENTS AND INVESTMENTS

Cash, cash equivalents and investments totaled \$223,614,742 as of June 30, 2009. Each fund's portion of this total is reflected in the balance sheet accounts entitled Cash and cash equivalents, cash with fiscal agent, investments held in trust, restricted cash and cash equivalents and restricted cash with fiscal agent. The City maintains a cash and investment pool that is available for use by all funds. Each fund's portion of the pool is displayed on the balance sheet (governmental funds) and the statement of net assets (proprietary funds) as "cash and investments or cash equivalents"

Cash Deposits – At June 30, 2009, the recorded amount of the City's deposits was (\$501,755); and the bank balance was \$914,250. As of June 30, 2009, the City's deposits with financial

City of Folsom

NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED JUNE 30, 2009

institutions in excess of federal depository insurance limits was held in uncollateralized accounts.

The California Government Code requires California banks and savings and loan associations to secure the City's cash deposits by pledging securities as collateral. This Code states that collateral pledged in this manner shall have the effect of perfecting a security interest in such collateral superior to those of a general creditor. Thus collateral for cash deposits is considered to be held in the City's name. The market value of pledged governmental securities must equal at least 110% of the City's cash deposits. California law also allows institutions to secure City deposits by pledging first trust deed mortgage notes having a value of 150% of the City's total cash deposits. The City has waived collateral requirements for cash deposits that are fully insured up to \$250,000 by the FDIC.

The City follows the practice of pooling cash and investments of all funds, except for funds required to be held by fiscal agents under the provisions of bond indentures. Interest income earned on pooled cash and investments is allocated on a monthly basis to the various funds based on month-end cash and investment balances. Interest income from cash and investments with fiscal agents is credited directly to the related fund.

Investments

The table below identifies the investment types that are authorized for the City by California Government Code Section 53601 (or the City's investment policy, where more restrictive). The table also identifies certain provisions of the California Government Code (or the City's investment policy, where more restrictive) that address interest rate risk, credit risk, and concentration of credit risk. This table does not address investments of debt proceeds held by bond trustee that are governed by the provisions of debt agreements of the City, rather than the general provisions of the California Government Code or the City's investment policy.

Authorized Investment Type	Maximum Maturity	Maximum Percentage Of portfolio *	Maximum Investment in One issuer
Local Agency Investment Fund (LAIF)	N/A	100%	None
Bonds Issued by the City	5 years	80%	None
U.S. Treasury Bills, Notes and Bonds	5 years	80%	None
Registered State Warrants, Treasury Notes or Bonds of the State	5 years	20%	None
Bonds, Notes or Warrants of any Local Agency within the State	5 years	20%	None
Federal Agency Securities or U.S. Government Sponsored Enterprise Obligations	5 years	50%	25%
Bankers Acceptances	180 days	40%	30%
Commercial Paper *1	270 days	25%	10%
Negotiable Certificates of Deposit	5 years	20%	10%
Repurchase agreements	1 year	30%	None
Reverse Repurchase agreements	92 days	20%	None
Medium Term Notes	5 years	30%	None
Mutual Funds	N/A	20%	10%
Notes, Bonds or Obligations for Purpose of Securing Local Agency Deposits	5 years	None	None
Mortgaged Backed or Consumer Pass-through Securities	5 years	20%	None
Shares of Beneficiary Interest issued by a JPA	N/A	20%	None

* Excluding amounts held by bond trustee that are not subject to California Government Code Restrictions.

*1 An additional 15%, or a total of 30%, may be invested in commercial paper if the weighted dollar average of the entire amount does not exceed 31 days.

*3 In Banks which have capital and surplus of at least \$5,000,000.

*4 Subject to approval of the Certificate Insurer

Disclosures Relating to Interest Rate Risk – As a means of limiting its exposure to fair value losses arising from rising interest rates, the City's investment policy requires that at least 50 percent of the City's investment portfolio mature in less than one year. An additional limitation is that investments with a maturity of more than five years must be specifically authorized by the City Council as required by government code. One of the ways that the City of Folsom manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion is maturing or coming close to maturing evenly over time as necessary to provide cash flow and liquidity needed for operations. At June 30, 2009, the City Treasury had the following investment maturities:

City of Folsom

Disclosures Relating to Credit Risk - Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. State law limits investments in commercial paper and corporate bonds to the top two ratings issued by nationally recognized statistical rating organizations (NRSRO's). It is in the City's policy to limit its investments in these investment types to an "A" rating or higher issued by NRSRO's, including raters Standard & Poor's, and Moody's Investors Services. At June 30, 2009, the City's credit risks, expressed on a percentage basis, are as follows:

Credit Quality Distribution for Securities with Credit Exposure as Percentage of Total Investments

Investment Type	Moody's Credit Rating	S & P's Rating	% of Investments
Federal Home Loan Bank (FHLB)	AAA	AAA	2.2%
Federal Home Loan Mortgage Corporation (FHLMC)	AAA	AAA	1.8%
Local Agency Investment Fund (LAIF)	Not rated	Not rated	28.2%
Money Market Funds	Not rated	Not rated	6.9%
Municipal Obligations	Not rated	Not rated	49.4%

Corporate Note (Gen Elec)	AA2	AA+	0.4%
Corporate Note (Lehman Brothers)	WR	N/R	0.3%
Corporate Note (Wachovia Corp)	A1	AA-	0.5%
CAMP	Not rated	AAAm	6.7%
			<u>100.00%</u>

Concentration of Credit Risk – The California Government Code and the investment policy of the City contains limitations on the amount that can be invested in any one issuer. To mitigate credit risk in the investment portfolio, the City diversifies investments by security type and issuer. With the exception of U.S. Treasury securities, the Local Agency Investment Fund and bonds issued by the City, no more than 50% of the City's total investment portfolio can be invested in a single security type or with a single issuer.

City of Folsom

NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED JUNE 30, 2009

Custodial Credit Risk - Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the City will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code has provisions for financial institutions that limit custodial credit risk for deposits. Financial institutions are required to secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law. The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by public agencies. California law also allows financial institutions to secure City deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits. The City's financial institutions also have insurance through the Federal Depository Insurance Corporation (FDIC). The City's investment policy has no additional provisions for limiting custodial credit risk for deposits. At June 30, 2009, the City Treasury had \$0 exposed to custodial credit risk and there was no securities lending.

Investments in Local Agency Investment Funds - The City is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California. The fair value of the City's investment in the pool is reported in the accompanying financial statements at amounts based upon the City's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized costs of that portfolio, as calculated monthly). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis.

The City's investment in LAIF included a portion of the pool funds invested in collateralized mortgage obligations, mortgage backed securities, other asset-backed securities, loans to certain state funds, and floating rate securities issued by federal agencies, government-sponsored enterprises, and corporations. These investments included the following:

Structured Notes are debt securities (other than asset backed securities) whose cash flow characteristics (coupon rate, redemption amount or state maturity) depend on one or more indices and/or that have embedded forwards or options.

Asset-Backed Securities, the bulk of which are mortgage-backed securities, entitle their purchasers to receive a share of the cash flows from a pool of assets such as principal and interest repayments from a pool of mortgages (such as Collateralized Mortgage Obligations) or credit card receivables.

Investments in CAMP - The City is a voluntary participant in the California Asset Management Program (CAMP). Oversight of CAMP is provided by a Board of Trustees, which consists of seven trustees. The trustees are appointed to the Board of Trustees from members of the governing body, officers, or full-time employees of a public agency that is a participant in the trust and approved annually by the participants. The fair value of the City's investment in this pool is reported in the accompanying financial statements at amounts based upon the City's pro-rata share of the fair value provided by CAMP for the entire CAMP portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the

City of Folsom

NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED JUNE 30, 2009

accounting records maintained by CAMP, which are recorded on an amortized cost basis. Information regarding the amount of dollars invested in derivatives by CAMP was not available.

3. RECEIVABLES

Receivables as of June 30, 2009, consist of the following:

	Folsom Redevelopment Agency Special Revenue Fund		Folsom Redevelopment Agency Debt Service Fund		Transportation Improvement Capital Projects Fund		Other Governmental Funds		Internal Service Funds		Total

Solid Waste Enterprise	1,749,331	-	-	-	-	-	-	-	-	74,121	1,823,452
Other enterprise	6,837,643	-	-	-	-	-	24,529	-	-	4,535	6,866,707
Internal Service	1,631,129	-	-	-	-	-	-	-	-	-	1,631,129
Total	\$ 29,331,400	\$ 21,511	\$ 1,870,456	\$ 1,539,718	\$ 2,244,417	\$ 242,419	\$ 9,086,735	\$ 824,931	\$ 3,231,966	\$ 1,494,572	\$ 49,888,125

During the year various interfund transfers listed above were made to finance expenditures, subsidize operating losses and service debt. Transfers into the City's General fund were for the following purposes: (1) Cost allocation plan \$4.8 million, (2) Public works support \$1.01 million, (3) Debt service \$500k (4) Salary and benefit reimbursement \$2.6 million, (5) Fund Movement \$12.4 million, (6) transfer of Capital Assets from Enterprise Funds \$6.2 million. Transfers to the governmental funds mostly consisted of (1) \$8 million to the Development due to closing of that fund, (2) \$2.2 million from the RDA special revenue fund to the RDA capital projects fund for capital projects (3) \$1.5 million to Internal Services for technical services. Transfers to the Enterprise funds mostly due to movement of funds to the general fund.

Note that this transfer schedule does not agree to the fund statements for the General fund due to the movement of capital assets and debt related to the approved shift of Enterprise and Internal Service funds to the General fund.

City of Folsom

City of Folsom

NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED JUNE 30, 2009

Certificates of Participation

In July, 1997, the City issued the City of Folsom Refunding Certificates of Participation (City Parks and Five Traffic Signals) for \$795,000 with interest rates of 4.75% to 5.875% and a final maturity on October 1, 2020. The Certificates were issued to refund the local obligation Certificates of Participation dated July 1, 1990, to fund a reserve, and to pay associated delivery costs. The Project is currently owned by the Folsom Public Financing Authority and leased to the City through a facility lease. \$ 540,000

The Folsom Public Financing Authority leases the Facility to the City and the City will make rental payments to a Trustee, on behalf of the Authority which will include principal and interest on the Certificates and will be paid on April 1 and October 1 of each year. The City has entered into a Contract for Custody and Program Services to State inmates with the State of California, which provides for payment by the State to the City for certain amounts, including all base rental payments under the Facility Lease. Base rental payments will be made solely from the amounts received from the State pursuant to the State Contract. 1,405,000

In October, 2001, the City of Folsom issued the 2001 Central Business District Fire Station Certificates of Participation for \$3,750,000 with interest rates from 2.20% to 4.375% for the serial bonds and 5.125% for the term bonds. The bonds were issued for the acquisition and construction of a fire station in the City's central business district. The serial bonds are payable semi-annually on April 1 and October 1 of each year commencing October 1, 2003 through 2016, with installments ranging from \$105,000 to \$155,000. The term bonds of \$2,030,000 mature on October 1, 2026, with installments ranging from \$160,000 to \$250,000. 3,105,000

In September, 1999, the Folsom Public Financing Authority issued Certificates of Participation for \$825,000 with interest rates of 5.75% and 6.0%. The Certificates were issued to provide funds to acquire and construct a recreation facility located within the City of Folsom, to fund a reserve for the Certificates, and to pay associated Certificate issue costs. The Folsom Public Financing Authority will lease the facility to the City and the City will make rental payments to a trustee on behalf of the Authority which will represent principal and interest payments for the Certificates. The Certificates mature on June 30, 2019 and June 30, 2029. 785,000

Total Governmental Activities Certificates of Participation \$ 5,835,000

City of Folsom

NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED JUNE 30, 2009

Revenue Bonds

Governmental Activities:

In March 1998, the Folsom Public Financing Authority issued \$2,860,000 for the purpose of purchasing the Local Obligation Hannaford Crossing Refunding Bonds. Serial bonds were issued with maturity commencing September 2, 1998 through 2012 with interest rates from 3.75% to 5.5%, with remaining installments ranging from \$90,000 to \$215,000. 1,805,000

In April 1999, the Folsom Public Financing Authority issued Special Revenue Bonds for \$6,125,000 with interest rates of 3.5% to 5.3%. The bonds mature beginning September 2, 1999 through 2012. The bonds were issued to finance the purchase of four separate issues of limited obligation refunding improvement bonds, each issued by the City of Folsom on behalf of an existing assessment district, to fund a reserve, and to pay associated issue costs. The four districts are Legends, Cobble Hills, Ridgeview, and Cresleigh. 3,940,000

In June 2002, the Folsom Public Financing Authority issued refunding lease revenue bonds for \$16,950,000 with interest rates of 1.40% and 5.0% payable on April 1 and October 1. The Certificates were issued to provide funds to refund the Authority's outstanding Revenue Bonds, Series 1992. The bonds mature beginning on October 1, 2002 through October 1, 2017, with remaining installments ranging from \$875,000 to \$1,275,000 10,620,000

In December 2003, the Folsom Public Financing Authority issued Reassessment Revenue bonds, with interest rates of 2.00% to 5.50%. The bonds mature beginning October 1, 2004 through October 1, 2018 with payments ranging from \$270,000 to \$830,000. The bonds were issued to refund the Public Financing Authority's 1988 Local Agency Revenue Bonds, by the purchase and cancellation of the City's Limited Obligation Improvement Bonds Assessment District 1989-1, which secure the refunded authority bonds, fund a reserve fund and pay certain costs of issuance. The bonds are subject to optional redemption by the Authority prior to their respective maturity dates as a whole or in part with a redemption premium equal to the following percentages of such principal amount of Bonds to be redeemed, 3% on or prior to April 1, 2010 and 0% on or after October 1, 2010. 5,535,000

City of Folsom

NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED JUNE 30, 2009

In June 2004, the Folsom Public Financing Authority issued Special Tax Revenue Bonds, Senior Series A \$14,685,000 with interest rates of 2.00% to 5.00% and Subordinate Series B \$7,800,000 with interest rates of 2.25% to 5.70%. The Serial bonds mature beginning September 1, 2005 through September 1, 2021, with payments ranging from \$540,000 to \$1,475,000. Term bond sinking fund requirements begin September 1, 2017 through September 1, 2021, with payments ranging from \$1,020,000 to \$1,235,000. The bonds were issued to finance and purchase two separate issues of special tax refunding bonds of existing community facilities districts and pay certain costs associated with issuance. Two Series A Bonds may be called on any September 1, or March 1 beginning September 1, 2012 at 102% and declining to 100% after September 1, 2014. Series B Bonds may be called on any September 1, or March 1 beginning September 1, 2009 at 102% and declining to 100% after September 1, 2011. 18,505,000

In July 2007, the Folsom Public Financing Authority issued Special Tax Revenue Bonds, Series 2007A \$45,540,000 with interest rates of 4.00% to 5.00% and Subordinated Series 2007B \$24,885,000 with interest rates of 3.85% to 5.20%. The Serial bonds mature beginning September 1, 2008 through September 1, 2024, with principal payments ranging from \$410,000 to \$2,355,000. Term bond sinking fund requirements begin September 1, 2023 through September 1, 2032, with payments ranging from \$55,000 to \$5,075,000. The bonds were issued to finance and purchase five separate issues of special tax refunding bonds of four existing community facilities districts and pay certain costs associated with issuance. Series 2007A Bonds may be called on any September 1, or March 1 beginning September 1, 2017 at 100%. Series 2007B Bonds may be called on any September 1, or March 1 beginning September 1, 2007 at 103% until March 1, 2015 then incrementally declining to 100% on September 1, 2017. 69,440,000

In July 2008, the Folsom Public Financing Authority issued \$11,955,000 Reassessment Revenue Bonds, Series 2008, with interest rates of 3.00% to 5.00%. The Serial Bonds mature beginning September 2, 2009 through September 2, 2017, with principal payments ranging from \$720,000 to \$1,325,000. Term bond sinking fund requirements commence September 2, 2018 through September 2, 2019, with payments consisting of \$1,430,000 and \$1,515,000. The bonds were issued to provide funds to finance the purchase of the City of Folsom Limited Obligation Refunding Bonds, Prairie Oaks Reassessment District No. 2008-01 (the "Local Obligations"), to fund a reserve fund, and to pay certain costs of issuance. The Local Obligations were issued to refund and defease the Folsom Public Financing Authority 1997 Special Assessment Revenue Bonds, Series A and Subordinated Series B. The bonds are subject to optional redemption, without premium, in whole or in part, by the Authority on or after September 2, 2018. 11,955,000

Total Governmental Revenue Bonds \$ 121,800,000

Less: amount representing interest	(108,687)	(92,160)	(200,847)
Present value of minimum lease payments	\$ 909,667	\$ 1,102,223	\$ 2,011,890

Notes Payable

On January 31, 2006, the City acquired the Folsom Sports Complex for \$6.5 million. Terms of the agreement called for the City to make an initial \$3 million down payment and issue a promissory note for the remaining \$3.5 million to be paid in seven annual payments of \$500,000, beginning January 31, 2007 through January 31, 2013. The City will pay no interest on the note provided it makes the annual payments within 10 days of the due date, January 31. Annual debt service requirements to maturity for the notes payable are as follows:

Year Ending June 30	Business-type activities	
	Principal	Interest
2010	\$ 500,000	-
2011	500,000	-
2012	500,000	-
2013	500,000	-
	\$ 2,000,000	\$ -

Compensated Absences

The City's policy relating to compensated absences is described in Note 1. There is no fixed payment schedule for compensated absences. In prior years, compensated absences have been liquidated primarily by the General Fund and proprietary funds.

Prior Year Defeasance

On July 19, 2007, the Folsom Public Financing Authority issued \$45,540,000 of Special Tax Revenue Bonds, Series 2007A and \$24,885,000 of Special Tax Revenue Bonds, Subordinated Series 2007B with interest rates ranging from 3.85% to 5.20%. Proceeds from the sale of bonds, as well as cash previously collected for debt service, held for rebate, or held for reserve, were used to purchase U.S. Government Securities. Those securities were deposited in an

City of Folsom

NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED JUNE 30, 2009

irrevocable trust with an escrow agent to provide for the debt service of the entire 1996 CFD 9, portions of the 1999 and 2003 CFD 10, the entire 1998 CFD 11, and portion of 2002 CFD 14 Special Tax Revenue Bonds refunded. As a result, the CFD 9 and CFD 11 bonds, as well the as portions of CFD 10 and CFD 14 bonds, are considered to be defeased and the related liability has been removed from the government-wide statement of net assets. As of June 30, 2009, \$13,790,000 of the 1999 CFD 10 Bonds, \$23,430,000 of the 2003 CFD 10, and \$16,875,000 of the 2002 CFD 14 Bonds were outstanding.

Current Year Defeasance

During the year ended June 30, 2009, the City utilized the proceeds of the \$11,955,000 Folsom Public Financing Authority Reassessment Revenue Bonds, Series 2008 (the "2008 Bonds"), with interest rates ranging from 3.00% to 4.50%, for the purpose of current refunding the Authority's outstanding 1997 Special Assessment Revenue Bonds, Series A (the "1997A Bonds") & Subordinated Series B (the "1997B Bonds"). Proceeds of the 2008 Bonds, in addition to prior issue funds, were deposited into irrevocable trusts to provide for the future debt service of \$10,692,349 for the 1997A Bonds and \$2,130,312 for the 1997B Bonds.

The City completed the refunding to reduce debt service payments by \$1,809,923 in aggregate and to obtain an economic gain (difference between the present value of the old and new debt service payments) of \$944,836 in aggregate.

8. PLEDGE OF FUTURE REVENUES

The Folsom Public Financing Authority Water Revenue Bonds, Series 1998 are limited obligations of the Authority payable solely from revenues consisting of installment payments to be made by the City under an installment purchase contract. The obligation of the City to make installment payments constitutes a special obligation of the City payable solely from a first lien on net revenues. Net revenues are revenues of the water system less maintenance and operation costs. \$19,325,000 in bonds were issued primarily to finance the costs of the 1998 Water Project, which consisted of increasing the peak capacity of the existing water treatment plant from 25 million gallons per day ("mgd") to 40 mgd, as well as replacement and rehabilitation of portions of the water system as a whole. The total principal and interest remaining to be paid on the bonds is \$24,649,239 through fiscal year 2029. Principal and interest paid for the current year and total customer net revenues were \$1,242,945 and \$2,711,772 respectively. Annual principal and interest payments on the bonds are expected to require less than 46 percent of net revenues.

The Folsom Public Financing Authority Water Revenue Bonds, Series 2005A are limited obligations of the Authority payable solely from revenues consisting of installment payments to be made by the City under an installment purchase contract. The obligation of the City to make installment payments constitutes a special obligation of the City payable solely from a pledge of the available revenues. Available revenues are net revenues as defined by the 1998 Water Bonds less the payment of debt service on those bonds. \$14,285,000 in bonds were issued primarily to finance a portion of the costs of the 2005 Water Project, which consisted of improvements designed to increase the capacity of the existing water treatment from a peak capacity of 40 mgd to a peak capacity of 50 mgd as well as to upgrade disinfection facilities. The total principal and interest remaining to be paid on the bonds is \$22,643,777 through fiscal year 2035. Principal and interest paid for the current year and net available revenues were

City of Folsom

NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED JUNE 30, 2009

\$877,184 and \$1,468,827 respectively. Annual principal and interest payments on the bonds are expected to require less than 60 percent of available revenues.

The Redevelopment Agency of the City of Folsom Tax Allocation Bonds, Series 1997, Series 2005, and Series 2006 are limited obligations of the Redevelopment Agency payable solely from and secured solely by a pledge of tax revenues on a parity basis. The pledge of tax revenues in each bond year will be in an amount equal to annual debt service payable on the bonds. Tax revenues are defined as the taxes eligible for allocation to the Agency pursuant to the Redevelopment Law exclusive of (i) amounts, if any, not exceeding 20 percent of certain of such taxes which may be required by law to be set aside for certain housing purposes; (ii) amounts, if any, received pursuant to Section 16111 of the Government Code; and (iii) amounts, if any, payable pursuant to Sections 33607.5 and 33607.7 of the Redevelopment Law. \$34,135,000 in bonds were issued in three series to refund prior bonds, finance a Library Project, and finance a Parking Structure, within the Agency. The total principal and interest remaining to be paid on all the bonds is \$51,861,103 through fiscal year 2037. Principal and interest paid for the current year and tax revenues were \$1,855,455 and \$6,245,658, respectively. Annual principal and interest payments on the bonds are expected to require less than 30 percent of the available revenues.

9. SPECIAL ASSESSMENT DEBT WITH NO CITY COMMITMENT

Special assessment Districts in various parts of the City have issued debt under the 1915 Bond Act and Mello-Roos Special Tax Act to finance infrastructure improvements and facilities within their boundaries. The 1915 Act Bonds are not a general obligation of the City and neither the faith and credit nor the taxing power of the City, the State of California, or any political subdivision thereof is pledged to the payment of any debt service for these districts. The City is the collecting and paying agent for the debt issued by these Districts, but has no direct or contingent liability or moral obligation for the payment of this debt. Therefore, this debt is not included in general long-term debt of the City. The outstanding balance of each of these issues as of June 30, 2009 is as follows:

City of Folsom

10. CLASSIFICATION OF NET ASSETS

In the Government-wide Financial Statements, net assets are classified in the following categories.

Invested in Capital Assets, Net of Related Debt – This category groups all capital assets, including infrastructure, into one component of net assets. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction or improvement of these assets reduce this category.

Restricted Net Assets – This category represents external restrictions imposed by creditors, grantors, contributors or laws or regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation. Investments held in trust represent assets held for future special assessment debt service. Additionally, this category presents restrictions placed on the categories of Capital Projects, Debt Service, and Specific Projects and Programs as established by City Council.

Unrestricted Net Assets – This category represents the net assets of the City, which are not restricted for any project or other purpose.

Reserves are portions of the fund balance not appropriable for expenditures under the flow of current financial resources measurement focus or those portions of the fund balance legally segregated for specific future use. Designations are portions of the fund balance, which have been identified by management to reflect tentative plans or commitments of governmental

City of Folsom

NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED JUNE 30, 2009

resources. The City's reserves and designations at June 30, 2009, are comprised of the following:

Reserved for:

Encumbrances – Represent approved purchase orders, contracts, and other commitments not completed at the end of the fiscal year.

Insurance deposits – Represent amounts advanced by the City to the insurance joint powers authority to provide for payment of claims within the City's self-insured retention layer.

Inventory – Portion of fund balance which does not represent available, spendable resources even though it is a component of assets.

Loans receivable – Reflect the non-current portion of Loans Receivable and are not considered as current available funds.

Land held for resale – Reflects non-current resources not considered as current available funds.

Low and moderate income housing – Set aside for eligible low and moderate income family housing.

Debt service – For payment of long-term debt principal, interest and related fiscal charges.

Investments held in trust for debt service – Represents investments held for future special assessment debt service.

Capital projects – Represents cash restricted for specific capital projects.

Designated for:

Debt service – For payment of long-term debt principal, interest and related fiscal charges.

11. PENSION PLAN

Plan Description - The City contributes to the Safety Plan of the City of Folsom and the Miscellaneous Plan of the City of Folsom (Plans) which are part of the California Public Employees' Retirement System (PERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for governmental entities in the State of California. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries.

All City employees are eligible to participate in PERS. Part-time employees must meet specific criteria for participation. City employees are eligible for retirement at age 50 or older with 5 years of service credit. Benefits are payable monthly for life in an amount equal to a certain percent of their average salary during their highest year of employment. Benefit provisions and all other requirements are established by state statute and city ordinance. Copies of PERS' comprehensive annual financial report may be obtained from their executive office at 400 P Street, Sacramento, CA 95814.

Funding Policy – For the year ended June 30, 2009, the City's annual pension cost of \$3,790,796 for the Safety Plan and \$4,231,909 for the Miscellaneous Plan were equal to the

City of Folsom

NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED JUNE 30, 2009

City's required contributions. The required contributions were determined as part of the June 30, 2006 actuarial valuations using the entry age normal actuarial cost method with the contributions determined as a percent of pay. Active plan members in PERS are required to contribute 8% (9% for safety members) of their annual covered salary. The City is required to contribute at an actuarially determined rate. The current rate is 16.006% for non-safety employees and 24.449% for safety employees. The actuarial assumptions included (a) 7.75% investment rate of return (net of administrative expenses); (b) projected annual salary increases that vary by age, service, and type of employment from 3.25% to 14.45% for miscellaneous employees and 3.25% to 13.15% for safety employees; (c) inflation of 3.00%; and (d) payroll growth of 3.25%. The actuarial value of the Plans' assets was determined using a technique that smoothes the effect of short-term volatility in the market value of investments over a three-year period. The Plans' initial unfunded actuarial accrued liability (or excess assets) is being amortized as a level percentage of projected payroll on a closed basis. The remaining amortization period as of June 30, 2006 was 23 years for the Safety Plan and 22 years for the Miscellaneous Plan.

Three years of trend information regarding annual pension cost is summarized as follows:

Fiscal Year Ended	Miscellaneous Plan			Safety Plan		
	Annual Pension Cost (APC)	Percentage of APC Contributed	Net Pension Obligation	Annual Pension Cost (APC)	Percentage of APC Contributed	Net Pension Obligation
6/30/2007	\$ 3,606,580	100%	-	\$ 3,100,886	100%	-
6/30/2008	3,892,686	100%	-	3,274,360	100%	-
6/30/2009	4,231,909	100%	-	3,790,796	100%	-

Funding Status and Funding Progress – As of June 30, 2007, the most recent actuarial valuation date, the Safety Plan was 75.2% funded and the Miscellaneous Plan was 75.2% funded. For the Safety Plan, the actuarial accrued liability for benefits was \$77 million, and the actuarial value of assets was \$58 million, resulting in an unfunded actuarial accrued liability (UAAL) of \$19 million. The covered payroll (annual payroll of active employees covered by the plan) was \$14 million, and the ratio of the UAAL to the covered payroll was 138.2%. For the Miscellaneous Plan, the actuarial accrued liability for benefits was \$85 million, and the actuarial value of assets was \$64 million, resulting in an unfunded actuarial accrued liability (UAAL) of \$21 million. The covered payroll (annual payroll of active employees covered by the plan) was \$24 million, and the ratio of the UAAL to the covered payroll was 88.1%.

The schedule of funding progress, presented as RSI following the notes to the financial statements presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

12. POST-EMPLOYMENT HEALTH CARE BENEFITS

Basis of Accounting - Employees are not required to contribute to the plan. Employer contributions are recognized when due and when a formal commitment is made to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

City of Folsom

NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED JUNE 30, 2009

Plan Description – The City of Folsom Retiree Health Program (City) is a single-employer defined benefit healthcare plan administered by Benefit Trust Company. The City provides medical, dental and vision insurance benefits to eligible retirees. Benefit provisions are established and may be amended by City labor agreements, which are approved by the City Council. On November 27, 2007, the Council adopted a resolution authorizing the City Manager to establish a Futuris Public Entity Investment Trust and a Retirement Board of Authority (BOA). The BOA is made up of the Mayor, one at large Council member, City Manager, Finance Director, and the Human Resources Director. The BOA has delegated authority of the newly created OPEB trust to Benefit Trust Company (BTC) per the Futuris Trust Administrative Services Agreement. Upon signing the agreement, BTC has been deemed to have executed the Trust and during the term of this Agreement, BTC further agreed to serve as a discretionary trustee, with fiduciary oversight and authority over the operations and management of the Trust.

Funding Policy - The contribution requirements of plan members and the City are established and may be amended by City Council. The required contribution is based on projected pay-as-you-go financing requirements, with an additional amount to prefund benefits as determined annually by the Council. For fiscal year 2008-2009, the City contributed \$2,134,865 to the plan, including \$1,484,865 for current premiums and an additional \$650,000 to prefund benefits. Plan members receiving benefits contributed \$141,703, or approximately 10% of the total premiums, through their required contributions ranging from \$20 - \$215 per month, depending on coverage.

Annual OPEB Cost and Net OPEB Obligation – The City's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the *annual required contribution of the employer* (ARC), an amount actuarially determined in accordance with the parameters of GASB 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the City's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the City's net OPEB obligation:

Annual required contribution	\$ 3,836,886
Interest on net OPEB obligation	126,666
Adjustment to annual required contribution	-
Annual OPEB cost (expense)	<u>3,963,552</u>
Contributions made	<u>(2,134,865)</u>
Increase in net OPEB obligation	1,828,687
Net OPEB obligation - beginning of year	<u>1,809,513</u>
Net OPEB obligation - end of year	<u>\$ 3,638,200</u>

The ARC was determined as part of the February 1, 2007 actuarial valuation. The ARC rate was 7% of annual covered payroll increased for a 3% increase in payroll costs during the fiscal year. The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2009 and the preceding year were as follows:

City of Folsom

NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED JUNE 30, 2009

<u>Fiscal Year Ended</u>	<u>Annual OPEB Cost</u>	<u>Percentage of Annual OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
6/30/2008	\$ 3,725,132	51%	\$ 1,809,513
6/30/2009	3,963,522	54%	3,638,200

Funded Status and Funding Progress – The funded status of the plan as of June 30, 2009, was as follows:

Actuarial accrued liability (AAL)	\$ 30,715,898
Actuarial value of plan assets	-
Unfunded actuarial accrued liability (UAAL)	<u>\$ 30,715,898</u>
Funded ratio (actuarial value of plan assets/AAL)	0.0%
Covered payroll (active plan members)	\$ 35,787,940
UAAL as a percentage of covered payroll	85.83%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions – Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the February 1, 2007, actuarial valuation, the entry age normal cost method was used. The actuarial assumptions included a 7% investment rate of return (net of administrative expenses), an annual healthcare cost trend rate of 4% and an inflation assumption of 3%. The Entry Age Normal (EAN) cost method spreads plan costs for each participant from entry date to the expected retirement date. Under the EAN cost method the plan's normal cost is developed as a level amount over the participants' working lifetime. The actuarial value of plan assets was \$0.

City of Folsom

NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED JUNE 30, 2009

The plan's unfunded actuarial accrued liability is being amortized using the flat dollar amount method over 30 years.

13. RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

There are no significant reductions in insurance coverage from prior years and there have been no settlements exceeding the insurance coverage for each of the past three fiscal years.

The City has joined together with other Cities in the State of California to participate in Northern California Cities Self Insurance Fund (NCCSIF), a joint powers agency which provides the City with a shared risk layer of coverage above the self insured \$100,000 retention for liability and workers' compensation. In addition, NCCSIF provides claims servicing to the City for the banking layer, which represents the City's self insurance. The NCCSIF is composed of 18 member cities and is governed by a board of directors appointed by the member cities. The governing board has authority over budgeting and financing. The workers' compensation and general liability programs are administered by third-party administrators.

NCCSIF is a governmental joint powers authority formed in July 1978, pursuant to the Government Code of the State of California, commencing with Section 6500. The purpose is to create a common pool of funds to be used to meet obligations of the parties to provide workers' compensation benefits for their employees and to provide excess liability insurance. The Authority provides pooled claims processing administrative services, risk management services, and actuarial studies. The City of Folsom Council members do not have significant oversight responsibility, since they evenly share all factors of risk and responsibility with the other cities. However, ultimate liability for payment of claims and insurance premiums resides with member cities. The Authority is empowered to make supplemental assessments as needed to eliminate deficit positions of member cities. If the JPA becomes insolvent, the City is responsible only to the extent of any deficiency in its shared equity balance.

Upon termination of the JPA agreement, all property of the authority will vest in the respective parties which theretofore transferred, conveyed or leased said property to the Authority. Any surplus of funds will be returned to the parties in proportion to actual equity balances of each entity.

The Authority establishes claims liabilities based on estimates of the ultimate cost of claims (including future claims settlement expenses) that have been reported but not settled, plus estimates of claims that have been incurred but not reported. Because actual claims costs depend on various factors, the claims liabilities are recomputed periodically using a variety of actuarial and statistical techniques to produce current estimates that reflect recent settlements, claim frequency, and other economic and social factors. A provision of inflation is implicit in the calculation of estimated future claims costs. Adjustments to claims liabilities are charged or credited to expense in the periods in which they are made. Settled claims have not exceeded insurance coverage for each of the past three fiscal years.

The City's deposit for its banking layer administered by NCCSIF of \$3,502,696 and \$3,839,881 as of June 30, 2009 and 2008 is recorded in the general fund as insurance deposits, respectively. Activity for the fiscal years ended June 30, 2009 and 2008 is as follows:

14. COMMITMENTS

Reimbursement Agreements –

On November 2, 1987, the City of Folsom entered into a reimbursement agreement with a developer for street improvements in the Willow Creek Estates South subdivision. As of June 30, 2009 reimbursements totaling \$817 in the form of credits on transportation improvement fees have been made to the developer. The balance at June 30, 2009 is \$817.

On April 15, 1997, a Development Agreement for credits totaling \$1,195,982 was signed between the City of Folsom and Creekside Court LLC. The agreement pertains to the purchase of certain parcels within the former Folsom Auto Plaza site and stipulates that Creekside Court LLC may assign these credits to projects within the former Folsom Auto Plaza project area and/or to other projects within the City of Folsom. As of June 30, 2009 four projects have been completed and credits applied totaling \$1,144,060 with a remaining balance of \$51,922.

Facilities Augmentation Fund - Folsom South Area Facilities Plan -

For the purpose of implementing the Folsom South Area Facilities Plan of the Public Facilities Element of the General Plan of the City of Folsom, a Facilities Augmentation Fee (FAF) and Critical and General Facilities Augmentation Funds have been established for the purpose of funding the construction of both General and Critical Facilities. Such fees are intended to augment existing City fees and thereby provide the necessary means for financing the construction of the facilities identified in the Folsom South Area Facilities Plan and shall be imposed upon each parcel of real property within a specified area. "General Facilities" are those water delivery, sewer, roadway and drainage improvements identified in the Folsom South Area Facilities Plan as prerequisites for development in the Folsom South Area. "Critical Facilities" are the following facilities which are identified in the Folsom South Area Facilities Plan: improvements to the treatment and water storage facilities, upgrading of the sewer pump station facilities and provision for an additional sewage outflow main.

The amount of the FAF will be revised annually, to be effective on January 1 of each year commencing January 1, 1984. Critical facilities fees are due and payable at time of recording of any final subdivision or parcel map covering property within the specified area.

A property owner/developer shall be entitled to credits against the FAF. A property owner/developer who has installed and paid for, or subjected its property to assessment liens to cover the cost of installing general and/or critical facilities shall receive a credit against that

City of Folsom

NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED JUNE 30, 2009

portion of the FAF attributable to general and/or critical fees. If the credit exceeds the portion of the FAF attributable to general facilities, the difference shall be reimbursed to the property owner/developer. If the credit exceeds the portion of the FAF attributable to critical facilities, the excess may, in the discretion of the City Council, be credited against the portion of the FAF attributable to general facilities. Otherwise, the amount shall be reimbursed to the property owner/developer. No interest shall be paid upon the amount, which the property owner/developer is due from general facilities account. Reimbursement to developers shall have priority over the use of general facilities fees for the construction of general facilities.

During the year ended June 30, 2009 the City received \$0 of critical facilities fees. The City, at June 30, 2009 had \$772,452 available for reimbursement of general facilities credits. Net assets of \$333,055 are all restricted for "Critical Facilities" use.

Annexation Agreement -

The City of Folsom annexed the Alder Creek Development as of January 1, 1993. This annexation consists of 310 acres. The annexation facilitated the development of an Auto-Mall on approximately 56 acres. The site is immediately adjacent to the Folsom Boulevard and Highway 50 freeway exit.

The retail sales tax produced by the taxable sales of all of the businesses within this area is shared, 50% to the City and 50% to Sacramento County through a property tax exchange agreement.

15. CONTINGENT LIABILITIES

General Liability – There are various claims and legal actions pending against the City for which no provision has been made to the financial statements. In the opinion of the City Attorney and City Management, liabilities arising from these claims and legal actions, if any, will not be material to these financial statements.

The City has received federal grants for specific purposes that are subject to review and audit by the federal government. Although such audits could result in expenditure disallowances under grant terms, any required reimbursements are not expected to be material.

The City is self insured and participates in a Public Entity Risk Pool. Details of this are covered in Note 13.

Arbitrage Rebate - Rebatable arbitrage is defined by the Internal Revenue Service Code Section 148 as earnings on investments purchased from the gross proceeds of a bond issue that are in excess of the amount that would have been earned if the investments were invested at a yield equal to the yield on the bond issue. The rebatable arbitrage must be paid to the federal government. The City estimates that rebatable arbitrage liability, if any, will be immaterial to its overall financial condition.

16. LANDFILL CLOSURE/POSTCLOSURE

The City landfill opened in 1974 and ceased operation in the spring of 1986. The landfill closure was completed on January 8, 1997 as per California Code of Regulations (CCR), Title 14, Chapter 3, Articles 7 and 8, and CCR, Title 23, Chapter 15. Landfill closure included installing a clay and soil cap, with vegetative cover. A small paved parking area was built on a portion of the closed landfill. The cost of closure was \$425,201. Financial assurance for the landfill closure and post closure care is described in the City's Water Quality Monitoring and Response

City of Folsom

NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED JUNE 30, 2009

Plan dated November 1992. Since the landfill did not accept waste after 1986, the funding for closure costs is not allocated on the basis of landfill capacity as required under the Code of Federal Regulations (CFR), Title 40, Parts 257 and 258, Subtitle D, Section 66796.22.

Three groundwater monitoring wells were installed in 1984. Three additional groundwater monitoring wells and six gas monitoring wells were installed in 1995 and in May 2001, a seventh groundwater monitoring well was installed. Annual maintenance costs following closure were estimated to be \$5,000.

Postclosure care includes cleanup of any substance or material releases, semiannual monitoring, and routine maintenance. Actual costs since closure in 1997 have been significantly higher and are anticipated to remain at a higher level than originally estimated. In the prior year, it was estimated that the postclosure care period would continue for nineteen years.

During FY 2009, the City initiated a "clean closure" of the inactive landfill in accordance with Title 27 of the California Code of Regulations. Clean closure is a process where the waste in the inactive landfill is removed, sorted and characterized for recycling or offsite disposal, resulting in a clean property. The City initiated the clean closure to address the impacts to groundwater and to reduce postclosure monitoring costs. Construction activity is expected to be completed during FY 2010. Provided the City meets all of the clean closure requirements as prescribed by the respective oversight agencies, the postclosure care period is expected to be reduced significantly. As of June 30, 2009, the estimate for postclosure costs was \$687,693.

The City has identified multiple funding sources for closure including the Wastewater Fund and Solid Waste Funds. The total current costs of postclosure care are estimates and subject to changes resulting from inflation/deflation, technology, change in scope of work, or changes in applicable laws or regulations.

17. DEFICIT FUND BALANCES

- The Development Special Revenue Fund had a deficit fund balance of \$1,762,569 at June 30, 2009 primarily as a result of expenditures incurred in advance of receipt of revenues and will be eliminated with future revenues and expenditure reductions.
- The Humbug Willow Creek Special Revenue Fund had a deficit fund balance of \$1,348,406 at June 30, 2009 primarily as a result of expenditures incurred in advance of receipt of revenues and will be eliminated with future revenues.
- The Folsom Redevelopment Agency Capital Project Fund had a deficit fund balance of \$174,089 at June 30, 2009 primarily as a result of expenditures incurred in advance of receipt of revenues and will be eliminated with future revenues.
- The Zoo Improvement Capital Project Fund had a deficit fund balance of \$16,528 at June 30, 2009 primarily as a result of expenditures incurred in advance of receipt of revenues and will be eliminated with future revenues.

City of Folsom

NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED JUNE 30, 2009

18. SUBSEQUENT EVENTS

Debt Issuance - In August 2009, the City issued the Series 2009 Refunding General Obligations Bonds which refunded the 1993 Series C & D General Obligation Bonds. The 1993 bonds had an outstanding amount of \$10.7 million after payment of the debt service in FY 2009-10. The 2009 Bonds were issued for \$10.2 million and will save taxpayers over the life of the bonds through reduced principal amounts and lower interest rates.

Debt Issuance - In October 2009, the Redevelopment Agency issued the \$18.1 million Redevelopment Agency of the City of Folsom Central Folsom Redevelopment Project Tax Allocation Bonds, Series 2009. The purpose of these bonds was to refund the remaining outstanding \$2.4 million principal of the 1997 RDA Bonds, with the remaining proceeds after issuance expenses to be used to fund various projects within the Agency.

Proposition 1A - On July 28, 2009, the California legislature and Governor Arnold Schwarzenegger passed the state budget and approved a provision allowing the state to borrow 8% of the amount of property tax revenue apportioned to cities, counties, and special districts. Under the provision, the State will be required to repay those obligations by June 13, 2013. The provision also created an option for California local public agencies to relieve the burden of loaning the State property tax revenue. The provision, called Proposition 1A Securitization, authorizes the California Statewide Communities development Authority ("California Communities") to purchase the receivable due to local agencies from the state. In a simultaneous transaction, California Communities will issue bonds and remit the cash proceeds to the participating local public agencies. To offset the shortages related to the borrowing of property taxes, the City has elected to participate in the Proposition 1A Securitization program. The securitization transaction closed on November 19, 2009, and the City will receive the installment payments on January 15 and May 3, 2010.

Redevelopment Agencies - In July 2009, the California Legislature passed ABX4-26 as part of the State's budget package which required redevelopment agencies to remit approximately \$2.05 billion in redevelopment revenues back to the State. Under ABX4-26, each redevelopment agency must contribute to a proportionate share of revenue to the newly created Supplemental Educational Revenue Augmentation Fund (SERAF). The bill authorizes redevelopment agencies, from July 1, 2009, to June 30, 2010, to suspend all or part of its required 20% allocation to its Low and Moderate Income Housing Fund (Housing Fund) in order to make the required payments. The Housing Fund must be repaid by June 30, 2015. If the agency fails to repay the Housing Fund, the required allocation of tax increment to the Housing Fund is increased to 25% for most agencies as long as the project area continues to receive tax increment. This will result in the delay or elimination of many affordable housing projects where redevelopment funding is a key funding component. In October 2009, the California Redevelopment Association and two of its members filed a lawsuit to challenge the constitutionality of the bill. A ruling is expected before May 2010, the date redevelopment agencies must make their 2009-2010 payment to the State.

City of Folsom

NOTE TO REQUIRED SUPPLEMENTARY INFORMATION FOR THE YEAR ENDED JUNE 30, 2009

Budgetary Data

Annual budgets are adopted on a basis consistent with generally accepted accounting principals for all governmental funds except the capital projects funds, which adopt multi-year length budgets, and fiduciary funds, which are not budgeted. The level of control (i.e., the level at which expenditures may not legally exceed appropriations) is the fund. All appropriations remaining at year-end lapse, except for purchases in progress which are carried forward to the following year and reserved by encumbrances. The following procedures are followed in establishing the budgetary data reflected in the financial statements:

- A. Department Heads prepare a budget request based upon the previous year's expenditures.
- B. Meetings are held between the Department Heads, Chief Financial Officer, and the City Manager for the purpose of reviewing and prioritizing budget requests.
- C. The City Manager submits the proposed city budget to the City Council, who makes decisions regarding department budgets.
- D. Transfers between funds and changes in the total budget must be approved by the City Council.

Budget information is presented for the General Fund and Folsom Redevelopment Agency Special Revenue Fund as required supplementary information. The budget information is presented on a basis consistent with generally accepted accounting principles. Appropriations, except open project appropriations, and unexpended grant appropriations, lapse at the end of each fiscal year.
