

**CITY OF FOLSOM
REQUEST FOR PROPOSALS
FOR PROFESSIONAL CONSULTANT SERVICES
TO CONDUCT A DEVELOPMENTAL NEXUS AND IMPACT FEE STUDY
FOR PARK IMPROVEMENT FEES**

A. OBJECTIVE

The City of Folsom (City) is seeking the services of a Consultant to conduct a comprehensive study of Developmental Impact fees (Impact Fees) and completion of a Nexus Study in accordance with the California Mitigation Fee Act (Act). The City currently assess impact fees on new residential and commercial development to mitigate the fiscal impact on police, fire, and general facilities; park facilities and equipment; water and sewer; transportation and roads; and other capital facilities. The current Park Improvement Fee will not generate enough funding to complete the Park Improvement Master Plan as envisioned. The City is exploring alternative fee structures for the remaining development within Folsom, not including the Folsom Plan Area.

B. INTRODUCTION

Folsom was incorporated in 1946 and chartered in 1990. The City operates under a Council-Manager form of government with over 400 employees. The City provides a full range of services normally associated with a municipality, including police, fire, emergency medical response, public works, transit, community development, planning, and building inspections. In addition, the City also operates a library, park and recreation facilities including a zoo sanctuary and aquatic center, and provides water, sewer, and solid waste utility services.

The City of Folsom is located 25 miles northeast of downtown Sacramento along the Highway 50 corridor. Folsom's total population is estimated at approximately 74,000 which includes the inmate population of Folsom State prison. The City's population was expected to reach residential build-out population in the year 2018. There are about 2,500 housing units remaining to be developed in the City. The current Park Improvement Fee is expected to generate approximately \$7.2 million from now until build-out. However, the Park Master Plan calls for improvements that total over \$32 million.

In 2012 the City annexed the Folsom Plan Area which is south of Highway 50 and will add an additional 24,000 population at build-out in 2035. This recently annexed area is not to be included in the analysis of the existing Park Improvement Fee as it has its own impact fees. However, it should be included in the comparison section of the scope of services.

C. SCOPE OF SERVICES

The Scope of Services includes, but is not limited to, all necessary analyses and documentation to develop and support a comprehensive Nexus Study and Impact Fee program for the completion of the public park improvements outlined in the Parks Master Plan. Work should be based on the requirements of the California Mitigation Fee Act. In general, the scope of work shall involve the following:

1. **Review Proposed Impact Fees:** The Consultant will review the City’s existing Park Improvement Fee structure and make recommendations for changes or additions as appropriate.
2. **Data Collection and Development.** The Consultant shall work with City departments to collect the necessary data and to develop additional data required to fully support a comprehensive Impact Fee Program.
3. **Fee Calculation and Analysis.** The Consultant shall determine and update the current and proposed Impact Fees based on the City’s existing Master Plans. Alternative fee levels should be presented for consideration. These alternatives should be from what the existing fee would generate and present gradients up to what fees would be necessary to fund all additional planned park improvements. Additionally, the Consultant may suggest unique areas or separate zones where appropriate and necessary to identify opportunities for additional revenue to accommodate the planned park improvements.
4. **Comparisons:** List and review Park Impact Fees implemented in other communities, make a comparative analysis of fees, expected improvements, and proportionate development burden. Include Folsom Plan Area as a comparison, and design potential competitive fee recommendations.
5. **Impact Fee/ Nexus Study:** The Consultant shall prepare and provide a report that provides the legal nexus between new development, proposed park improvements, and fee recommendations. It should also document fee study results, including, but not limited to, a description of the overall methodology, findings, supporting justification, and recommended Impact Fees. The report will be expected to meet all of the requirements of the California Mitigation Fee Act.
6. **Calculation Spreadsheets and Methodology:** The Consultant shall provide City Finance staff with Excel worksheets to allow for future fee updates. The Consultant will also review all calculations and fee study methodology with City Finance staff.
7. **Presentation of Materials:** The Consultant will present findings to an internal review committee and may also present to community groups, the City Council, appointed Commissions, and others as directed. This may include presentation of the Final Report to the City Council at a City Council meeting.
