**TRAFFIC SAFETY COMMITTEE
STAFF REPORT**

DATE: January 16, 2020
TO: Traffic Safety Committee
FROM: Public Works Department
SUBJECT: SPEED LIMIT ADOPTION: VARIOUS MINOR ARTERIAL AND COLLECTOR STREETS

BACKGROUND/ANALYSIS

The City of Folsom is periodically required to review posted speed limits and conduct studies to determine if the posted limits are still valid. In cases where it is determined that the speed limit should be increased or decreased, staff is required to conduct a public hearing and obtain City Council approval in order to adopt the new limit.

Staff is currently conducting updated "Engineering Studies for Speed Zoning" on all major roadways throughout the City, using the consulting firm TJKM to perform the data collection and analysis and to recommend speed limits. To date, the City has completed updates the major arterial roadways throughout the City. The remaining surveys are on minor arterial roadways (arterials carrying less traffic and/or at lower posted speeds) and collector streets (roadways that connect residential areas to the arterial street network, usually with lower volumes and speeds than an arterial roadway).

The attached table summarizes the recommended speed limits on the roadways under consideration. Items that are greyed-out on the table have already been considered by this Committee and are not under consideration at this time.

STAFF RECOMMENDATION/TRAFFIC SAFETY COMMITTEE ACTION

Staff recommends adoption of the recommended speed limits; if approved, the speed limits will be considered by the City Council at future meetings.
