Design Review Submittal Requirements

The applicant shall submit the following information with the Community Development Department for review by the Community Development Director or the Planning Commission (FMC 17.06.060):

- A. Completed and signed Design Review Application Form
 - B. Application fee (\$55.00 – Single Family Residence, \$1,919.00 – Multi-Family/Commercial),
 - C. A detailed site/grading plan (see required information attached)
 - D. Building elevations showing all sides of the structure(s) affected by the proposed construction
 - E. Floor plans
 - F. Material samples and color board (exterior)
 - G. Arborist Report, when work is to be done near protected trees (oaks) or if removal of protected trees is required (see the City of Folsom Tree Reporting Requirements & Procedures document for further information)
 - H. Photographs of the project site taken within 30 days prior to the application submittal which accurately depicts the project location
 - I. Copies of all entitlements granted for the subject property by the City, including conditions of approval and the environmental documentation (when applicable)
 - J. Copies of all required state and federal permits (when applicable)
 - K. Other material and information as requested by the Community Development Director or the Planning Commission.
- All applicants shall submit ONE (residential) or TEN (commercial) complete set(s) of full-size (24' by 36') plans and one complete set(s) of digital (PDF) OR reduced plans (8.5" by 11"). Digital plans can be emailed to plngcounter@folsom.ca.us. Complete sets of plans should include a detailed site plan, building elevations, floor plans, and foundation plans (residential submittal)

Home Owners Association (HOA) Note: The architecture and design of your project may be subject to review and approval by the subdivision's Homeowners Association (HOA) or Architectural Design Review Board (if applicable). The Community Development Department strongly encourages all projects go through any applicable (Homeowners Association or Architectural Design Review Board) design review process prior to submitting a Design Review Application Form to the City.

Tree Permit Note: Any project that has the potential to impact a protected tree(s) must submit a Tree Permit Application Form to the Community Development Department. The Tree Permit Application Form is subject to review and approval by the City Arborist. Protected trees are native oak trees with a diameter of 6 inches or greater at 54 inches in height, "street trees", and landmark trees. In the case of multiple trunk trees with stem diameters less than 6 inches, includes trees with an aggregate diameter of 20 inches or more (FMC, Section 12.16).

Detailed Site/Grading Plan: All site plans must include the following information:

- Site address, subdivision and lot number, North arrow and assessor's parcel number (APN)
- Proposed use of structure and current zoning designation
- Lot dimensions showing property lines of subject property and adjacent properties within 40 feet of subject property lines; provide total area (square footage) of lot, including lot coverage percentage
- Building footprint and square footage; provide dimensions to property lines and show all front, side and rear building setback lines, finish floor elevations for both house and garage
- Show existing and proposed grade contours of the lot
- Driveway: Show intersection with roadway
 - Back of walk or curb elevations at driveway connection and approximate driveway slope in percent
 - Corner lot – Verify driveway is located a minimum of 5-feet from clear vision triangle
- Location of:
 - All existing structures
 - Retaining walls (show design, height, and materials)
 - Direction and location of lot drainage
 - Public and private easements, correctly labeled
 - Any equipment that may be ground-mounted that is typically roof-mounted
- Evidence of neighborhood design review/homeowners association approval recommended (where applicable)
- Tree locations, sizes and species. Show off-site trees if they hang over property line. (Tree Permit and Arborist Report is required of work that is to be done near protected trees (oaks) or if removal of protected trees is required.)
- Landscape plan indicating:
 - Planter areas and dimensions
 - Quantity, size and species of plants and trees
- Grading Plan: If the project involves substantial grading (cut or fill) or is situated on a sloped lot a separate detailed grading plan may be required

Commercial Projects: All commercial projects must include the following additional information:

- Fire lanes
- Handicapped accessible pathways and parking spaces
- Parking area (including parking spaces)
- Lighting plan:
 - Include cut sheet with fixture type/model and wattage
 - Show building and pole-mounted lights, landscape and parking area lights
- Landscape plan indicating:
 - Planter areas and dimensions
 - Quantity, size and species of plants and trees
 - Tree shading calculations for parking areas (Include water use calculations)
- Freestanding sign locations
- Location of:
 - Electric meters and transformers
 - Sewer and water lines
 - Water meters
 - Cleanout
 - Backflow preventers
 - Fire department connections and hydrant locations
 - Post indicator valves
 - Gas meters
 - Trash enclosures
